Theology Of The Soul:

Theology of the Soul Martine C. L. Oldhoff, 2024-06-10 Theology of the Soul engages with a thoroughly theological and philosophical subject in fresh and profound ways the soul The author examines the possibility of a concept of the soul in modern Western theology In the second part of the 20th century speaking about the soul was strongly criticized in Theology and Philosophy Consequently many academic theologians consider the word soul problematic Remarkably the word soul is very much present in contemporary culture This book takes cultural notions of the soul as employed by for example Marilynne Robinson and Oprah Winfrey as a point of departure The author then investigates the functions of the soul in classical theologies and provides elucidating overviews of the ways in which the soul is discussed and problematized in contemporary Philosophy and Biblical Studies After introducing the apostle Paul as conversation partner she reconsiders various contemporary concepts from a Pauline perspective and offers a constructive systematic theological proposal to speak of the soul in today's modern theological and cultural contexts This interdisciplinary study integrates continental and analytic methods and discussions on the soul in Philosophy and Theology providing a very comprehensive study of the soul **The**

Soul J. P. Moreland, 2014-02-14 In a culture in which science is believed to hold the answers to every question spiritual realities like the soul are often ignored or ridiculed We are told that neuroscience holds the key to explaining every aspect of human behavior Yet Christian philosopher J P Moreland argues that Scripture sound philosophical reasoning and everyday experience all point to the reality of an immaterial soul Countering the arguments of both naturalists and Christian scholars who embrace a material only view of humanity Moreland demonstrates why it is both biblical and reasonable to believe humans are essentially spiritual beings He also describes the various components of the soul and how Christians can nurture their souls as disciples of Christ Moreland shows that neuroscience and the soul are not competing explanations of human activity but that both coexist and influence one another *The Soul, Her Sorrows and Her Aspirations. Mind, Brain and the Elusive Soul Mark Graves, 2016-04-22 Does science argue against the existence of the human soul Many scientists and scholars believe the whole is more than the sum of the parts This book uses information and systems theory to describe the more that does not reduce to the parts One sees this in the synapses or apparently empty gaps between the neurons in one's brain where informative relationships give rise to human mind culture and spirituality Drawing upon the disciplines of cognitive science computer science neuroscience general systems theory pragmatic philosophy and

Christian theology Mark Graves reinterprets the traditional doctrine of the soul as form of the body to frame contemporary scientific study of the human soul Soul, Psyche, Brain: New Directions in the Study of Religion and Brain-Mind Science K. Anderson, 2004-08-02 In this theological memoir Ray Anderson takes us on his own journey from the prairie to the pulpit and from the soul of a believer into the soul of a theologian As a sequel to his earlier book *The Soul of Ministry* he shares with us the process by which his own spiritual hunger moved from uneasiness and unrest into a deeper sense of the soul of theology as exploration into the very soul of God Part One In Part Two each chapter traces out the contours of a theology which sings as well as stings After more than 40 years of ministry as pastor teacher and theologian Anderson presents a theological hermeneutic by which Scripture and human experience can be read on the same page If reading this book produces astonishment and wonder at the depth and daring to which God s grace encounters and embraces us through Jesus Christ then that itself will lead us with awe and reverence to behold the soul of God *Neuroscience and the Soul* Crisp et al, 2016 It is a widely held belief that human beings are both body and soul that our immaterial soul is distinct from our material body But that traditional idea has been seriously questioned by much recent research in the brain sciences In *Neuroscience and the Soul* fourteen distinguished scholars grapple with current debates about the existence and nature of the soul Featuring a dialogical format the book presents state of the art work by leading philosophers and theologians some arguing for the existence of the soul others arguing against and then puts those scholars into conversation with critics of their views Bringing philosophy theology and neuroscience together in this way brings to light new nuances and significantly advances the ongoing debate over body and soul back of book *The Spiritual Soul* Matthew J. Churchouse, 2024-04-30 What is the human soul What does it do How does it relate to the brain and body What is happening in the soul when a person encounters the Holy Spirit These are some of the questions addressed in *The Spiritual Soul* as it advances towards its overall goal of proposing a re new ed Pentecostal Charismatic understanding of what constitutes a human being In pursuing this overarching intention Churchouse responds to the anthropology of two leading Pentecostal scholars Amos Yong and Veli Matti K rkk inen specifically their theological models concerning what a human is constituted essentially made up of to offer an enhanced Pentecostal model in preference to their monistic view Drawing upon the sources of biblical studies the philosophy of mind and upon the pneumatology that flows from Pentecostal spirituality Churchouse advances a renewed understanding of the human soul one illumined by the spirit and the Spirit to engender his distinctive Pentecostal model of human constitution **The Unified Operations of the**

Human Soul Jeffrey C. Waddington, 2015-07-24 This book endeavors to examine and critically assess the theological anthropology of Jonathan Edwards with a view to considering how this anthropology coheres with his apologetic methodology Specifically the question has been raised whether Edwards doctrine of man is consistent with the picture painted of Jonathan Edwards by John Gerstner that he was the epitome of the classical apologist It is argued that Edwards practiced an eclectic apologetic sans apologetic self awareness In other words Edwards was a child of his training and time

Religion, Politics, and Reclaiming the Soul of Christianity Jon Canas, 2022-10-12 God's unconditional love is the quintessential element the heart and soul of the teachings of Jesus Christ The rise of modern American Christian fundamentalism with its narrowly defined moralism and zeal to impose its restrictive views on all Americans attacks our country's democracy Today's Christian fundamentalists energize exclusionary right wing politics embolden xenophobia and in the process abandon the very roots of their own religious tradition The author takes a comprehensive look at the origins characters and spiritual essence that shaped Christianity In three sweeping sections he traces the evolution of Christian dogma and its use for political purpose the rise in consciousness from Law to Grace the derailment of the authentic Good News message of Jesus Christ and finally the necessity for our actions as modern Christians to be coherent with our beliefs His book is an urgent invitation to reclaim and return the soul of Christianity to its loving heart

The Soul of Theological Anthropology Joshua R. Farris, 2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it

Soul Woundedness Paul Houston Blankenship-Lai, 2024-11-05 A profound exploration into the spiritual beliefs and practices of Seattle's unhoused youth Soul Woundedness is an intimate piercing

book about everyday life for young adults living on the streets of Seattle Based on over five years of research and as a participant observer Paul Houston Blankenship Lai presents the personal experiences of street kids highlighting how their spiritual beliefs and practices offer them comfort a sense of community and a feeling of belonging amidst their struggles They also demonstrate how spirituality on the streets can alienate people from themselves and the world The stories Blankenship Lai tells here are about how social wounds go soul deep and how seemingly antireligious spiritual practices fashioned in an almost unlivable local world help people create a life still worth living By paying deep sustained attention to what spirituality is like on the streets and what difference it makes Blankenship Lai uncovers an important overlooked dimension in the experience and study of homelessness They invite us to enter these stories and to question how our own spiritual and otherwise practices can help create a more loving love Aimed at a diverse audience Soul Woundedness is a book not merely to educate but to transform It is particularly relevant for those interested in spirituality s role in addressing social inequities and underscores the importance of spiritual practices in overcoming adversity and promoting social change making a compelling case for a world where everyone has a place to call home
