Shaping Early Childhood: Learners,

Curriculum and Contexts Glenda Mac Naughton, 2003-12-16 This should be essential reading for anyone involved in the training and professional development of early years practitioners. It is an impressive analysis of the historical and contemporary big ideas that have influenced societies and practitioners' views of children and the nature of the curriculum. There are powerful sections on parents and communities. I particularly liked the stimulating ideas galleries with their statements from researchers, policy makers and practitioners around the world. *Nursery World* October 2004. This key textbook introduces students and practitioners to a wide range of different approaches to early childhood. It provides practical strategies for developing and implementing early learning experiences that promote excellence and equity for children. The book presents the latest research and thinking about good practice, discusses how various philosophies and beliefs influence decisions in early childhood education and identifies the key thinkers behind each approach. By examining different perspectives, the book helps early childhood practitioners to navigate their way through competing views, make informed choices and be critically reflective in their work. In an accessible, lively and user-friendly way, it explores issues such as: What constitutes an appropriate early childhood curriculum? How best to study and assess children? Involving parents and children in early childhood learning. The book features a range of pedagogical devices to inspire early childhood workers to reflect critically on their work and the ideas underpinning it, including: Boxed definitions of key terms; Ideas summary charts and ideas galleries; Clarification exercises; Case studies; Further reading lists. This essential textbook is ideal for students undertaking early childhood qualifications at degree level; Masters courses in early childhood education; and for practitioners who work with children from birth to eight in early childhood settings.

Development through Adulthood Oliver Robinson, 2020-04-04 Now updated for its second edition, this illuminating textbook explores the developmental stages and changes during adulthood that define some of the most pivotal years of our lives. Relationships, cognitive ageing, parenthood, personality shifts, life crises, fulfilment, funerals, friendships, retirement and death, all are presented in light of psychological theory and the latest research. Taking a thematic approach, the chapters cover interdependent areas of our cognitive, psychological, social, cultural and moral lives that constitute this fascinating area in psychology. Providing an empirical analysis, Robinson considers models for understanding behaviour and development, methods of collecting data and study design. Academically rigorous and elegantly written, *Development through Adulthood* is the perfect guide to classic and current research in the field. It is essential reading for students studying adult or lifespan development, gerontology and the psychology of ageing. It will also appeal to those studying an applied social science and anyone interested in fully understanding adulthood and ageing. New to this Edition: Spotlights on landmark studies, fully updated to cover the latest key research in each subject area; Increased focus on gender issues; Real world applications boxes updated with current and relevant examples of important intervention strategies.

Human Development and Faith (Second Edition) Felicity B. Kelcourse, 2015-07-28 This book now in its second edition brings together the best available understandings of human development from a multidisciplinary perspective Uniquely inclusive of the moral and faith dimensions of context and life cycle development Human Development and Faith examines the interplay of mind body family community and soul at every stage of development It addresses two central questions What are the good enough conditions of parenting family and community in each phase of life from birth to death which support growth and development What gives life adequate meaning as development proceeds If human development describes the normative and hoped for passages of life then faith

provides the necessary component of meaning Throughout the various perspectives offered in this volume is the premise that faith is that quality of living that makes it possible to fully live The Journal of Pastoral Theology called the first edition of Human Development and Faith an excellent text for pastoral theology courses because it fulfills its ambitious goal of bringing a holistic faith perspective to the usual topics of development This second edition includes a new chapter on infancy updates reflecting our growing awareness of cultural diversity and a new preface **Routledge Library Editions: Education**
