Therapy Kitchen Activity:

A Kitchen Training Program as an Occupational Therapy Activity Esther Boserup, 1985 **Crafts and Creative Media in Therapy** Carol Tubbs, Margaret Drake, 2024-06-01 For more than 20 years *Crafts and Creative Media in Therapy* Fifth Edition has been an illuminating reference for the use of creative approaches in helping clients achieve their therapeutic goals. Carol Crellin Tubbs has included a range of craft and creative activity categories from paper crafts to cooking to the use of recycled materials and everything in between. Each chapter includes a brief history of the craft, several projects along with suggestions for grading or adapting, examples of related documentation, and a short case study. The text also features chapters on activity analysis, general strategies for implementation of creative activities, and documentation, as well as a chapter describing the relevance of this media from both historical and current occupation-based perspectives. In this updated Fifth Edition, the craft projects have been updated, and numerous resources and links for more ideas have been added. There are new chapters on making therapy tools and crafting with a purpose, and the recycled and found materials chapter has been expanded in keeping with cultural trends. A flow chart has been added to each case study to help students better understand the process and rationale for tailoring activities for individual client needs, and project suggestions for working on specific performance skills or client factors are scattered throughout the chapters. Other additions include a behavioral observation checklist as an aid in evaluation and documentation, and several illustrations to help students distinguish between the use of occupation as means and occupation as end. This Fifth Edition also includes an updated instructors' manual with additional resources and suggestions for lesson planning. *Crafts and Creative Media in Therapy* Fifth Edition not only provides a wide assortment of craft ideas and instructions but also provides multiple suggestions for therapeutic uses for activities in each category. It includes ways to grade activities to best achieve therapy objectives and examples of documentation for reimbursement. For each craft category, there is discussion on precautions for use with certain populations, contextual limitations, and safety considerations. Information is presented in several different formats, such as examples, tables, illustrations, and other formats to promote student understanding. Included with the text are online supplemental materials for faculty use in the classroom. *Crafts and Creative Media in Therapy* Fifth Edition is the foremost resource for using creative approaches in helping clients achieve their therapeutic goals and should be used by all occupational therapists, occupational therapy assistants, and recreational therapists.

Therapeutic Reasoning in Occupational Therapy - E-Book Jane Clifford O'Brien, Mary Beth Patnaude, Teressa Garcia Reidy, 2021-12-24 Build the clinical reasoning skills you need to make sound decisions in OT practice. Therapeutic Reasoning in Occupational Therapy: How to Develop Critical Thinking for Practice uses practical learning activities, worksheets, and realistic cases to help you master clinical reasoning and critical thinking concepts. Video clips on the Evolve website demonstrate therapeutic reasoning and show the diverse perspectives of U.S. and international contributors. Written by OT experts Jane Clifford O'Brien, Mary Elizabeth Patnaude, and Teressa Garcia Reidy, this how-to workbook makes it easier to apply clinical reasoning in a variety of practice settings. Dynamic interactive approach reinforces your understanding with learning activities in each chapter. Case studies and experiential learning activities flow from simple to complex and represent occupational therapy across the lifespan. AOTA's Occupational Therapy Practice Framework 4th Edition and current OT practice are reflected throughout the book. Practical learning activities and templates are clinically relevant and designed to support reasoning in a variety of practice settings. Video clips on the Evolve website are contributed by practitioners, educators, and students reinforcing content and showing how therapeutic reasoning applies to real world cases. Worksheets and/or templates are included in each chapter to enhance learning and for use in practice. Assessments in each chapter measure therapeutic reasoning outcomes. Student and practitioner resources on Evolve include printable PDFs of the in-text worksheets, video clips, additional case examples, templates for assignments, exemplars, and reflective activities.

Solution-Focused Play Therapy Elizabeth Kjellstrand Hartwig, 2020-11-16 Solution Focused Play Therapy is an essential text that blends the process of play therapy with solution focused therapy. With a focus on child strengths and resources, this book identifies key concepts and principles in solution focused play therapy (SFPT). The author provides neurobiological and developmental support for SFPT and guidance on how practitioners can transition from using a non-directive approach to a more directive and activity-based approach based on the developmental needs of the child. Chapters describe the 12 basic skills needed for employing this approach with children of all ages and their families. Harnessing a strengths-oriented approach, the author presents expressive ways to use key SFPT techniques including the miracle question, scaling, finding exceptions, and end of session feedback. Clinicians will come away from the book with a suite of interventions, strategies, handouts, and forms that can be employed with children of all ages and their families from strength-based assessment and treatment planning to the final celebration session.
