recipes illustrated with mouthwatering pictures which would make you dream of savoring these dishes one day I could comment on how well explained all the tricks and techniques needed to cook these recipes are I could do all this and I would not be lying But instead I rather talk about the author A guy I liked from the minute I met him He is full of good vibes and has always helped me and other gastro bloggers in every way he could Alfonso is one of those odd people who likes everyone who does not fit the stereotype of a cautious Galician since he is bold and direct and on top of everything he is no dummy I also deeply admire him for creating one of the best blogs in Spain Recetas de Rechupete You might be thinking that you couldn't care less about all this and that the personal qualities of the author are not necessary when judging the recipes in a cookbook This could be true about a conventional cookbook but never about a blogger's cookbook The main value in any blog is that it is personal no one else could have written it And when it comes to culinary blogs it is important that they reflect the origins experiences tastes and the obsessions of the person that is driving it Both Recetas de Rechupete and the book are 100% Alfonso they ooze earnestness and frankness simplicity closeness but above all the good food enthusiasm put into it by the author I would love to have my own Alfonso preparing all these meals for me enjoying his conversation But since this is impossible at least until the electronic author is invented I will just have to resign myself to having the book in my computer and reverting to it every time I am in the mood for an everyday meal Mikel Lpez Iturriaga El Comidista Blogger and journalist at elpais.com

Speedy Budget Busters alyce alexandra, My mission has always been to get people cooking more often and from scratch yet over the years I ve come to realise there are three things that get in the way of this for people time money and skill So in this eBook I m covering off on all three so you are empowered to put a homecooked meal on the table every night this week and hopefully many more after that I ve kept all these recipes super quick using only a thermo cooker chopping board and occasionally a stove burner You ll have each one complete and on the table in less than 30 minutes some in as little as 15 Your total shop for the five nights will be less than 50 less than what a family of four would spend in one night on takeaway And these recipes are dead easy I promise The thermo cooker does most of the work and no matter what your skill level you ll be able to handle the rest The five recipes have been developed as a weekly collection offering a variety of flavours and also heavy and light meals I have intentionally tried to repeat ingredients as much as possible within those confines so there is less wastage and you can get a better price by buying things in bulk For example you ll buy one bunch of spring onions and use them across two recipes That s why we ve included a shopping list for the five meals However by no means feel you need to embrace all five recipes at once each will happily stand on their own whenever a cheap and speedy meal is in order I ve kept the ingredients list for each recipe as short as possible both to keep costs down but also to show how it really doesn t take much to put a nourishing and delicious meal on the table I have however added little notes on how you could jazz each recipe up if you had spare ingredients in the fridge pantry or garden but these are by no means essential I ve also kept all the recipes vegetarian there is a time and place to cut costs and quality but in my opinion animal products isn t one of them I hope you love this ebook and that my team and I have helped make your life that little bit easier Happy cooking love alyce alexandra xo P S Share your thoughts on this ebook with us on Facebook or Instagram We always love hearing from you
