*Schooling in Disadvantaged Communities* Carmen Mills,Trevor Gale,2009-10-23 Based on a study of one secondary school located in a disadvantaged community in Australia this book provides a different perspective on what it means to play the game of schooling Drawing on the perspectives of teachers parents and students this book is a window through which to explore the possibilities of schooling in disadvantaged communities The authors contend that teachers parents and students themselves are all involved in the game of reproducing disadvantage in schooling but similarly

they can play a part in opening up opportunities for change to enhance learning for marginalised students Rather than only attempting to transform students teachers should be also be concerned to transform schooling to provide educational opportunities that transform the life experiences of and open up opportunities for all young people especially those disadvantaged by poverty and marginalised by difference The book is also designed to stimulate understanding of the work of Bourdieu as well as of a Bourdieuan approach to research Seeing transformative potential in his theoretical constructs it airs the possibility that schools can be more than mere reproducers of society      **Behind Ghetto Walls** Michael

Novak,2017-09-08 This book is about the family lives of some 10 000 children and adults who live in an all Negro public housing project in St Louis The Pruitt Igoe project is only one of the many environments in which urban Negro Americans lived in the 1960s but the character of the family life there shares much with the family life of lower class Negroes as it has been described by other investigators in other cities and at other times in Harlem Chicago New Orleans or Washington D C This book is primarily concerned with private life as it is lived from day to day in a federally built and supported slum The questions which are treated here have to do with the kinds of interpersonal relationships that develop in nuclear families the socialization processes that operate in families as children grow up in a slum environment the informal relationships of children and adolescents and adults with each other and finally the world views the existential framework arising from the life experiences of the Pruitt Igoeans and the ways they make use of this framework to order their experiences and make sense out of them The lives of these persons are examined in terms of life cycles Each child there is born into a constricted world the world of lower class Negro existence and as he grows he is shaped and directed by that existence through the day to day experiences and relationships available to him The crucial transition from child of a family to progenitor of a new family begins in adolescence and for this reason the book pays particular attention to how each new generation of parents expresses the cultural and social structural forces that formed it and continue to constrain its behavior This book in short is about intimate personal life in a particular ghetto setting It does not analyze the larger institutional social structural and ideological forces that provide the social economic and political context in which lower class Negro life is lived These larger macro sociological forces are treated in another volume based on research in the Pruitt Igoe community However this book does draw on the large body of literature on the structural position of Negroes in American society as background for its analysis of Pruitt Igoe private life      Equal Shares Dennis Lewycky,Keitseope Nthomang,1999 Equal Sharestell a

fascinating story the history of a group of dynamic tapestry workers who changed the economic life of their community The authors examine a key community based cooperative in Botswana that was launched in the early 1970s and is hailed as a model for development and social change With little formal education virtually no job experience still working their own agricultural lands and many as single mothers the co op workers have maintained their business for over twenty five years Equal Shares is written in different voices and tells the story of the defining moments in the lives of the Oodi Weavers As the

workers weave their village stories into the tapestries the book weaves a story that depicts their evolving collective experience It s a model of community action Inspiring reading for all those fighting to take control of their economic lives

House,1921      **Seeing Slowly** Michael Findlay,2017-09-26 When it comes to viewing art living in the information age is not necessarily a benefit So argues Michael Findlay in this book that encourages a new way of looking at art Much of this thinking involves stripping away what we have been taught and instead trusting our own instincts opinions and reactions Including reproductions of works by Mark Rothko Paul Klee Joan Mir Jacob Lawrence and other modern and contemporary masters this book takes readers on a journey through modern art Chapters such as What Is a Work of Art Can We Look and See at the Same Time and Real Connoisseurs Are Not Snobs not only give readers the confidence to form their own opinions but also encourages them to make connections that spark curiosity intellect and imagination The most important thing for us to grasp writes Findlay is that the essence of a great work of art is inert until it is seen Our engagement with the work of art liberates its essence After reading this book even the most intimidated art viewer will enter a museum or gallery feeling more confident and leave it feeling enriched and inspired      **Quality of Health Care--human Experimentation, 1973. *Reckoning* Candis Callison,Mary Lynn Young,2019-11-28 How do journalists know what they know Who gets to decide what good journalism is and when it s done right What sort of expertise do journalists have and what role should and do they play in society Until a couple of decades ago journalists rarely asked these questions largely because the answers were generally undisputed Now the stakes are rising for journalists as they face real time critique and audience pushback for their ethics news reporting and relevance Yet the crises facing journalism have been narrowly defined as the result of disruption by new technologies and economic decline This book argues that the concerns are in fact much more profound Drawing on their five years of research with journalists in the U S and Canada in a variety of news organizations from startups and freelancers to mainstream media the authors find a digital reckoning taking place regarding journalism s founding ideals and

methods The book explores journalism's long standing representational harms arguing that despite thoughtful explorations of the role of publics in journalism the profession hasn't adequately addressed matters of gender race intersectionality and settler colonialism In doing so the authors rethink the basis for what journalism says it could and should do suggesting that a turn to strong objectivity and systems journalism provides a path forward They offer insights from journalists own experiences and efforts at repair reform and transformation to consider how journalism can address its limits and possibilities along with widening media publics My Theory of Evolution Will Coakley, 2025-03-07
