Casper, 2022-03-18 The U S infant mortality rate is among the highest in the industrialized world and Black babies are far

more likely than white babies to die in their first year of life Maternal mortality rates are also very high Though the infant mortality rate overall has improved over the past century with public health interventions racial disparities have not Racism poverty lack of access to health care and other causes of death have been identified but not yet adequately addressed The tragedy is twofold it is undoubtedly tragic that babies die in their first year of life and it is both tragic and unacceptable that most of these deaths are preventable Despite the urgency of the problem there has been little public discussion of infant loss The question this book takes up is not why babies die we already have many answers to this question It is rather who cares that babies mostly but not only Black and Native American babies are dying before their first birthdays More importantly what are we willing to do about it This book tracks social and cultural dimensions of infant death through 58 alphabetical entries from Absence to ZIP Code It centers women s loss and grief while also drawing attention to dimensions of infant death not often examined It is simultaneously a sociological study of infant death an archive of loss and grief and a clarion call for social change

The Ambivalent Art of Katherine Anne Porter Mary Titus,2010-06-02 During a life that spanned ninety years Katherine Anne Porter 1890-1980 witnessed dramatic and intensely debated changes in the gender roles of American women Mary Titus draws upon unpublished Porter papers as well as newly available editions

of her early fiction poetry and reviews to trace Porter's shifting and complex response to those cultural changes Titus shows how Porter explored her own ambivalence about gender and creativity for she experienced firsthand a remarkable range of ideas concerning female sexuality These included the Victorian attitudes of the grandmother who raised her the sexual license of revolutionary Mexico 1920s New York and 1930s Paris and the conservative ordered attitudes of the Agrarians Throughout Porter's long career writes Titus she repeatedly probed cultural arguments about female creativity a woman's maternal legacy romantic love and sexual identity always with startling acuity and often with painful ambivalence Much of her writing then serves as a medium for what Titus terms Porter's gender thinking her sustained examination of the interrelated issues of art gender and identity Porter says Titus rebelled against her upbringing yet never relinquished the belief that her work as an artist was somehow unnatural a turn away from the essential identity of woman as the repository of life as childbearer In her life Porter increasingly played a highly feminized public role as southern lady but in her writing she continued to engage changing representations of female identity and sexuality This is an important new study of the tensions and ambivalence inscribed in Porter's fiction as well as the vocational anxiety and gender performance of her actual life
