Laura Nader Laura Nader, 2020-12-15. Laura Nader documents decades of letters written, received, and archived by esteemed author and anthropologist Laura Nader. She revisits her correspondence with academic colleagues, lawyers, politicians, military officers, and many others, all with unique and insightful perspectives on a variety of social and political issues. She uses personal and professional correspondence as a way of examining complex issues and dialogues that might not be available by other means. By compiling these letters, Nader allows us to take an intimate look at how she interacts with people across multiple fields, disciplines, and outlooks. Arranged chronologically by decade, this book follows Nader from her early career and efforts to change patriarchal policies at UC Berkeley to her efforts to fight against climate change and minimize environmental degradation. The letters act as snapshots giving us glimpses of the lives and issues that dominated culture at the time of their writing. Among the many issues that the correspondence in Laura Nader explores are how a man on death row sees things, how scientists are concerned about and approach their subject matter, and how an anthropologist ponders issues of American survival. The result is an intriguing and comprehensive history of energy, physics, law, anthropology, feminism, and legal anthropology in the United States, as well as a reflection of a lifelong career in legal scholarship.

Survive the IB! Nathan Taber, 2011. **A Think-Aloud Approach to Writing Assessment** Sarah Beck, 2018. The book also discusses the

significance of the method in relation to best practices in formative assessment including how to plan think aloud sessions with students to gain the most useful information Teachers required to use rubrics or other standardized assessment tools can incorporate the more individualized think aloud approach into their practice without sacrificing the rigor and consistency more regulated approaches require Details how both students and teachers can benefit from engaging in this practice and does so in ways that allow readers to adapt it to their own situations Peter Smagorinsky University of Georgia This is the first truly new way of thinking about assessing writing that I have encountered in a long time Heidi L Andrade University at Albany SUNY An invaluable guide for using think aloud formative assessments to gain insight into student writing development Every high school and college writing instructor should read it Amanda J Godley University of Pittsburgh
