The Traditional Religion and Its Encounter with Christianity in Achebe's Novels Emmanuel Meziemadu Okoye, 1987 The meeting between the Christian faith and the Igbo people's ancestral tradition in Achebe's novels appears as a confrontation between two different religious systems and views. Christianity with its dogmatic claim to announce the absolute truth and Igbo religion with no claim to the absoluteness of its truths. Achebe's portrayal of the two religions is compared with Igbo ethnography and recent history in order to show that his picture of his people's religion and its encounter with Christianity is authentic. Fallen Star Molly Chanson, 2022-04-19 After being married for ten years and having two children, author and yogi Molly Chanson lives with a nagging feeling that something is wrong. Her suspicion that her husband is having an affair is further complicated by her addiction to alcohol, poor body image and a lost sense of self. Having first practiced yoga with her mother as a child, Chanson returns to a daily practice and discovers the profound impact that yoga can have on one's physical, mental and spiritual well-being. Fallen Star is Chanson's account of her far-reaching journey of healing, guided by Patanjali's Eight Limbs of Yoga, which includes asana (poses), pranayama (breath) and meditation, as well as self-discipline, surrender and more. Chanson shows how the tenets of ancient yoga philosophy can be applied to a broad spectrum of experiences shared by women ranging from dating, marriage and motherhood to loss of identity and focus on one's appearance. Here are lessons for women who seek to unravel stories and pain that have prevented them from living a complete and fulfilled life, to find their true selves and to awaken to new possibilities. Here is a story about tapping into the resilience, courage and hope lying deep within the human spirit. African Books in Print ,1993 The Nature of Nature Irv Dardik,Estee Dardik Lichter,2017-05-16 Generations of researchers have failed to answer our most basic questions about nature What is everything made of How do things change and how do they work What is life In The Nature of Nature visionary scientist Irv Dardik tackles these questions by introducing his discovery of SuperWaves a singular wave phenomenon whose design generates what we experience as matter space time motion energy and order and chaos Simply put the SuperWaves principle states that the fundamental stuff of nature is waves waves waving within waves to be exact Dardik challenges the rationality of accepting a priori that the universe is made of discrete particles Instead by drawing from his own discovery of a unique wave behavior and combining it with scientific facts he shows that every single thing in existence from quantum particles to entire galaxies is waves waving in the unique pattern he calls SuperWaves The discovery of SuperWaves and the ideas behind it while profound can be intuitively grasped by every reader whether scientist or layperson Touching on everything from quantum physics to gravity to emergent complexity and thermodynamics to the origins of health and disease it shows that our health and the health of the environment and civilization depend upon our understanding SuperWaves The Nature of Nature is an absorbing account that combines Dardik s contrarian look at the history of science with philosophical discussion his own groundbreaking research and hope for the future

Representing the Race Kenneth W. Mack,2012-05 A wonderful excavation of the first era of civil rights lawyering Randall L Kennedy author of The Persistence of the Color Line Ken Mack brings to this monumental work not only a profound understanding of law biography history and racial relations but also an engaging narrative style that brings each of his subjects dynamically alive Doris Kearns Goodwin author of Team of Rivals Representing the Race tells the story of an enduring paradox of American race relations through the prism of a collective biography of African American lawyers who worked in the era of segregation Practicing the law and seeking justice for diverse clients they confronted a tension between their racial identity as black men and women and their professional identity as lawyers Both blacks and whites demanded that these attorneys stand apart from their racial community as members of the legal fraternity Yet at the same time they were expected to be authentic that is in sympathy with the black masses This conundrum as Kenneth W Mack shows continues to reverberate through American politics today Mack reorients what we thought we knew about famous figures such as Thurgood Marshall who rose to prominence by convincing local blacks and prominent whites that he was as nearly as possible one of them But he also introduces a little known cast of characters to the American racial narrative These include Loren Miller the biracial Los Angeles lawyer who after learning in college that he was black became a Marxist critic of his fellow black attorneys and ultimately a leading civil rights advocate and Pauli Murray a black woman who seemed

neither black nor white neither man nor woman who helped invent sex discrimination as a category of law The stories of these lawyers pose the unsettling question what ultimately does it mean to represent a minority group in the give and take of American law and politics
