

The Snowman

Amin

Whenever I try to make a snowman it always gets destroyed. I don't know why? My dad says "make a snowball then put more snow on it!" I put more snow on it, but it doesn't work. Once he made one in front of me but I didn't understand. I was sooooo confusing for me. And each day in the winter I beg my dad to go out and practice how to make a snowman. And each day I go out to play with the snow I get better. And I tried and I tried until one time I gathered up the snow and just made it round and I had made a snowman! I was sooooo surprised that I had made a snowman! And then I just got a couple of sticks and I put them on and I screamed to my dad and said "I MADE A SNOWMAN!" because he wasn't watching me and he hugged me.

practice across the nation Unfortunately RTI remains ill defined falls far short of its evidence based practice goal is almost invariably misused and often results in more harm than good Nevertheless as a conceptual framework RTI has great potential for ensuring that students with disabilities receive appropriate evidence based instruction The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention RTI and its relation to multi tiered systems of support MTSS in both special education and general education Although the two terms are currently used interchangeably distinct differences exist between them Therefore chapters are dedicated to distinguishing the two concepts RTI and MTSS and describing each one s unique role in both general and special education In addition the authors recommend a third term Multi Tiered Instruction to differentiate the practices related to the purpose of the specific intervention
