1. Read the passage and answer the questions A and B.

Sheikh Kamal, the eldest son of Bangabandhu Sheikh Mujibur Rahman and Bangamata Fazilatunnesa Mujib, was born at Tungipara in Gopalganj district. He spent his childhood there. Kamal received his secondary education at Dhaka's BAF Shaheen school from where he passed his SSC examination. He was then admitted to Dhaka College, and after his HSC examination, he became a student at the department of sociology of Dhaka University. Kamal had a colorful life marked by liveliness and creativity. Besides his academic studies, he also pursued his passion for sports and cultural activities. He was a first division basketball and cricket player as well as a sports organizer. He was also interested in classical music, and became a student of Chhayanaut to learn Sitar under the tutelage of Ustad Ful Mohammad. Apart from Sitar, Kamal had a passion for Piano. He had a good collection of musical instruments on the second floor of their house at Dhanmondi, Road no. 32. It is well known to his friends that Sheikh Kamal used to begin his day practicing the Sitar and during the day played basketball or football or cricket. In the evening he was often seen on stage rehearsing a play. He took part in stage performance of Kabar written by prominent playwright shaheed Munir Chowdhury. Kamal was one of the founders of Dhaka theatre. He was also a founder of 'Spondon Shilpi Gosthi'— a cultural organization. And who doesn't know that Sheikh Kamal was the founder of Abahoni Krira Chokro that introduced modern football in our country.

There are interesting traits in Kamal's Character. He was the eldest son of a Prime Minister and later of a President. Yet, his life was very simple. He didn't take any advantage of his father's name and office. As he loved to spend time with his friends at Tungipara in his childhood, he loved to do the same during his college and university days. Watching good movies with them in Madhumita, Naz or Balaka cinema hall was also something that he really liked.

Developing Writers Across the Primary and Secondary Years Honglin Chen,Debra Myhill,Helen Lewis,2020-03-09

Writing development and pedagogy is a high priority area particularly with standardised testing showing declines in writing across time and through the years of schooling However to date there are relatively few texts for teachers and teacher educators which detail how best to enable the children to become confident autonomous and agentic writers of the future Developing Writers Across the Primary and Secondary Years provides cumulative insights into how writing develops and how it can be taught across years of compulsory schooling This edited collection is a timely and original contribution addressing a significant literacy need for teachers of writing across three key stages of writing development covering early 4 7 years old primary 7 12 years old and secondary years 12 16 years old in Anglophone countries Each section addresses two broader themes becoming a writer with a child oriented focus and writing pedagogy with a teacher oriented focus Together the book brings to bear rigorous research and deep professional understanding of the writing classroom It offers a novel approach conceiving of writing development as a dynamic and multidimensional concept Such an integrated interdisciplinary understanding enables pedagogical thinking and development to address more holistically the complex act of writing

Engaging Curriculum Bill Green,2017-09-18 Explicitly linking curriculum inquiry to English education via recurring themes of representation democracy and knowledge this book is a call for both researchers and practitioners to engage with curriculum explicitly and deliberatively as both a concept and a question The approach is broadly conceptual and constitutes an exercise in theoretical and philosophical inquiry While deeply informed by North American debates and developments this book offers a distinctive counterpoint and a strategically ex centric perspective being equally informed by the curriculum scene in Australia as well as the UK and elsewhere Divided into two sections this book first addresses matters of general curriculum inquiry while the second turns more specifically to English teaching and to associated questions of language literacy and literature in L1 education Green brings the two together through a critical examination of the Australian national curriculum especially in its implications and challenges for English teaching and with due regard for the project of transnational curriculum inquiry Culture and Economy in the Age of Social Media Christian Fuchs,2015-01-09

Understanding social media requires us to engage with the individual and collective meanings that diverse stakeholders and participants give to platforms It also requires us to analyse how social media companies try to make profits how and which labour creates this profit who creates social media ideologies and the conditions under which such ideologies emerge In short understanding social media means coming to grips with the relationship between culture and the economy In this thorough study Christian Fuchs one of the leading analysts of the Internet and social media delves deeply into the subject by

applying the approach of cultural materialism to social media offering readers theoretical concepts contemporary examples and proposed opportunities for political intervention Culture and Economy in the Age of Social Media is the ultimate resource for anyone who wants to understand culture and the economy in an era populated by social media platforms such as Twitter Facebook and Google in the West and Weibo Renren and Baidu in the East Updating the analysis of thinkers such as Raymond Williams Karl Marx Ferruccio Rossi Landi and Dallas W Smythe for the 21st century Fuchs presents a version of Marxist cultural theory and cultural materialism that allows us to critically understand social media s influence on culture and the economy

This volume provides a collection of theoretical and practical insights into the challenges and affordances faced globally during the pandemic and lessons learnt about the application of digital technologies for language teaching and learning. The chapters explore the vital role of technology in its various forms, including the internet, social media, CALL (Computer Assisted Language Learning), MALL (Mobile Assisted Language Learning), TALL (Technology Assisted Language Learning) and TELL (Technology Enhanced Language Learning). Topics explored include the new avenues digital technology has opened up for language teachers and learners, options and challenges in applying technology in various contexts, and how the second language education industry could have been adversely impacted at the time of the pandemic without technological affordances. The contributions showcase studies from various geographical contexts, revealing how the global crisis was received and tackled differently in Australia, Hong Kong, Iran, Italy, Japan, New Zealand, the UAE, the UK, and
