Progress in Sexology Robert Gemme, 2013-03-08 As editor of the series *Perspectives in Sexuality Behavior Research and Therapy* I consider it a major scholarly achievement to publish selected proceedings of the Second International Congress of Sexology Never before have so many professional

organizations supported such a conference or so many scholars from so many countries participated in such a conference. Eighteen countries were represented over one hundred papers were presented. The Congress and these proceedings mark an historical milestone for sexology in international scientific cooperation. The collaboration of so many researchers from diverse disciplines further illuminates the interdisciplinary approach. The papers presented reflect the challenge accepted by scientists to compare varieties of techniques and programs to develop new theories and creative approaches in their investigations and to initiate scientific study of heretofore taboo areas of inquiry. Clearly sexology has come of age. It takes its place among the respected scientific disciplines. This monumental achievement, the Second International Congress of Sexology, signals the emergence at the international level of Sexology as Science. Richard Green ix Preface. The Second International Congress of Sexology was held in Montreal, Canada, on October 28-31, 1976. Researchers of international acclaim from eighteen countries presented progress reports in specialties as endocrinology, neurophysiology, infertility, contraception, sexual dysfunction, ethics in sex research, and sex education. The Congress, whose theme was international progress in sexology, had as its scientific objective a wide range of subjects concerning the interdisciplinary study of sexology from many areas of the world. *Ms. Magazine* Gloria Steinem, Robin Morgan, Joanne Edgar, Patricia Theresa Carbine, Nina Finkelstein, Letty Cottin Pogrebin, 1978. **The Sexual Lives of Savages** Bronislaw Malinowski, 2013-04-15.
