

Essay Questions:

- Choose a particular idea or theme, such as romantic love, death, or nature, and consider how it is treated in two Romantic poems.
- How do the different authors we have studied so far define and describe oppression?
- Compare Frye's and Bartky's accounts of oppression. What does each imply about women's collusion in their own oppression? Which is more accurate?
- In the texts we've studied, soldiers who served in different wars offer differing accounts of their experiences and feelings both during and after the fighting. What commonalities are there in these accounts? What factors do you think are responsible for their differences?

Education for Democracy Chad Alan Goldberg, 2020-11-17 American public universities were founded in a civic tradition that differentiated them from their European predecessors steering away from the pursuit of knowledge for its own sake Like many such higher education institutions across the United States the University of Wisconsin s mission known as the Wisconsin Idea emphasizes a responsibility to serve the needs of the state and its people This commitment which necessarily

requires a pledge to academic freedom has recently been openly threatened by state and federal actors seeking to dismantle a democratic and expansive conception of public service Using the Wisconsin Idea as a lens Education for Democracy argues that public higher education institutions remain a bastion of collaborative problem solving Examinations of partnerships between the state university and people of the state highlight many crucial and lasting contributions to issues of broad public concern such as conservation LGBTQ rights and poverty alleviation The contributors restore the value of state universities and humanities education as a public good contending that they deserve renewed and robust support *Guidelines for Facilitating Learning* Howard L. Stone,1991 **Education Is Not an App** Jonathan A. Poritz,Jonathan Rees,2016-08-12 Whilst much has been written about the doors that technology can open for students less has been said about its impact on teachers and professors Although technology undoubtedly brings with it huge opportunities within higher education there is also the fear that it will have a negative effect both on faculty and on teaching standards Education Is Not an App offers a bold and provocative analysis of the economic context within which educational technology is being implemented not least the financial problems currently facing higher education institutions around the world The book emphasizes the issue of control as being a key factor in whether educational technology is used for good purposes or bad purposes arguing that technology has great potential if placed in caring hands Whilst it is a guide to the newest developments in education technology it is also a book for those faculty technology professionals and higher education policy makers who want to understand the economic and pedagogical impact of technology on professors and students It advocates a path into the future based on faculty autonomy shared governance and concentration on the university's traditional role of promoting the common good Offering the first critical in depth assessment of the political economy of education technology this book will serve as an invaluable guide to concerned faculty as well as to anyone with an interest in the future of higher education

Greene Benjamin, 2021-04-12 Nellie Y McKay 1930 2006 was a pivotal figure in contemporary American letters. The author of several books, McKay is best known for coediting the canon-making Norton Anthology of African American Literature with Henry Louis Gates Jr, which helped secure a place for the scholarly study of Black writing that had been ignored by white academia. However, there is more to McKay's life and legacy than her literary scholarship. After her passing, new details about McKay's life emerged, surprising everyone who knew her. Why did McKay choose to hide so many details of her past? Shanna Greene Benjamin examines McKay's path through the professoriate to learn about the strategies, sacrifices, and successes of contemporary Black women in the American academy. Benjamin shows that McKay's secrecy was a necessary tactic that a Black working-class woman had to employ to succeed in the white-dominated space of the American English department. Using extensive archives and personal correspondence, Benjamin brings together McKay's private life and public work to expand how we think about Black literary history and the place of Black women in American culture. *Productivity, Professionalism, and Parenting in Academia*. Christine E. Tulley, 2025-04-30 Drawing on time-use diary analysis, this unique and detailed study fills in the larger narrative about what it takes hour by hour to navigate academic motherhood with a rhetoric and composition career. Looking specifically at the intersections between parenting and writing for publication in order to find out how and when writing for career-advancing tasks such as publication occur, but also through the lens of disciplinary time constraints including heavy grading and administrative workloads, the book examines support systems noted within diary entries that make combining motherhood and a career in rhetoric and composition possible. Using both quantitative analysis of hours and qualitative coding of time-use diaries from rhet comp moms, this book answers questions about publishing, professionalism, and parenting. This book will interest scholars and graduate students working in the discipline of rhetoric, writing, and composition, particularly those working on labor and professional issues, on gender and equality within the discipline, and anyone working in all fields looking for ways to foster a better work-life balance.
