Information Systems Research and Exploring Social Artifacts: Approaches and Methodologies Isaías, Pedro, Baptista Nunes, Miguel, 2012-11-30 Centered on the impact of information and communication technology in socio technical environments and its support of human activity systems the study of information systems remains a distinctive focus in the area of computer science research Information Systems Research and Exploring Social Artifacts Approaches and Methodologies discusses the approaches and methodologies currently being used in the field on information systems This reference source covers a wide variety of socio technical aspects of the design of IS artifacts as well as the study of their use This book aims to be useful for researchers scholars and students interested in expanding their knowledge on the assortment of research on information systems

Advances in Computer, Information, and Systems Sciences, and Engineering Khaled Elleithy, Tarek Sobh, Ausif Mahmood, Magued Iskander, Mohammad A. Karim, 2007-06-06 The conference proceedings of International Conference on Industrial Electronics Technology not only the reviewing submissions and registration processes but also the actual conference Conference participants authors presenters and attendees only needed an internet connection and sound available on their computers in order to be able to contribute and participate in this international ground breaking conference The on line structure of this high quality event allowed academic professionals and industry participants to contribute work and attend world class technical presentations based on rigorously refereed submissions live without the need for investing significant travel funds or time out of the office Suffice to say that CISSE received submissions from more than 50 countries for whose researchers this opportunity presented a much more affordable dynamic and well planned event to attend and submit their work to versus a classic on the ground conference The CISSE conference audio room provided superb audio even over low speed internet connections the ability to display PowerPoint presentations and cross platform compatibility the conferencing software runs on Windows Mac and any other operating system that supports Java In addition the conferencing system allowed for an unlimited number of participants which in turn granted CISSE the opportunity to allow all participants to attend all presentations as opposed to limiting the number of available seats for each session The implemented conferencing technology starting with the submission review system and ending with the online conferencing capability allowed CISSE to conduct a very high quality fulfilling event for all participants See www.cissee2005.org sections IETA TENE EIAE

Developing E-Government Projects: Frameworks and Methodologies Mahmood, Zaigham, 2013-06-30 The emergence of e government allows for effective governance increased transparency better management and efficient services through the use of the internet and information and communication technologies Therefore world governments are mobilizing large amounts of resources in order to implement and promote the use of e government Developing E Government Projects Frameworks and Methodologies presents frameworks and methodologies for strategies towards the design implementation and adoption of e government projects By providing best practices in the

successful adoption of e government this book is essential for policy makers practitioners researchers and students interested in the approaches utilized for the successful implementation of e government projects Emerging Technologies in Non-Destructive Testing V Alkiviadis S. Paipetis, Theodore E. Matikas, Dimitrios G. Aggelis, Danny Van Hemelrijck, 2012-01-26 Non destructive evaluation NDE methods have dominated most of the fields of applied research and technology over the last twenty years These techniques provide information on the functional efficiency of materials and structures without causing any structural impact on the structure itself Their use enables the monitoring of the structural integrity the structural condition as well as the service induced degradation of materials and structures during their service life In this respect they address a vast field of applications ranging from the aerospace and automotive industry to civil engineering structures and material quality control This volume comprises scientific papers presented during the Fifth Conference on Emerging Technologies in Non Destructive Testing Ioannina Greece 19 21 September 2011 A broad spectrum of related research was presented during the course of the conference including optical acoustic thermal electrical and electromagnetic methods together with imaging tomographic and signal processing techniques Special attention was given to NDE for Civil Engineering Structures and for the first time in the conference series a multiple session on NDE for the protection of cultural heritage was organized Emerging Technologies in Non Destructive Testing V contains contributions by experts in this field from 22 different countries worldwide Reflecting the state of the art in Non Destructive Evaluation the book will prove to be a valuable companion to students engineers and industrial partners who are active in the field of non destructive evaluation and testing This volume will also provide students and researchers with insight into the focal points of contemporary research efforts in the field of non destructive evaluation *Mazibuko-Makena: Leap 4* Zamanzima Mazibuko-Makena, Erika Kraemer-Mbula., 2021-04-09 Leap 4 0 African Perspectives on the Fourth Industrial Revolution seeks to identify the challenges and opportunities the 4IR presents to South Africa and the rest of the African continent especially to workers and marginalised sectors of society Authors examine the prerequisites for the successful introduction of the 4IR including infrastructure skilled personnel and appropriate regulation They underline the importance of inclusive innovation with a deliberate objective to create net new jobs and reduce inequality The 4IR is well established in many parts of the world with technological advances driving profound social and economic change However for many developing countries particularly countries in Africa the 4IR may not offer the anticipated leap forward There is a danger that the continent may find itself dictated to by experiences that are not in tune with its social contexts Software Engineering Research in System Science Radek Silhavy, Petr Silhavy, 2023-07-08 The latest advancements in software engineering are featured in this book which contains the refereed proceedings of the part of the 12th Computer Science Online Conference 2023 CSOC 2023 held online in April 2023 The software engineering research in system science session is focusing on the importance of software engineering in the field of system science This section provides a platform for researchers to share their insights on

modern research methodologies machine learning and statistical learning techniques in software engineering research The session provides a unique opportunity for researchers and industry experts to explore the latest trends in software engineering and inspire future research directions This session brings together experts from different fields to present their research and discuss the latest challenges and opportunities One of the key themes of this session is the application of artificial intelligence in software engineering Researchers are exploring how techniques can be used to automate various aspects of software engineering such as testing debugging and maintenance This helps improve the quality and efficiency of software development processes

Creating Immersive Learning Experiences Through Virtual Reality (VR) Mazhar Hussain, Shaik, Nawaz Hakro, Ahmed, 2024-09-16 In the evolving educational environment the search for engaging and effective learning experiences has led to the research and implementation of the latest technologies Among them virtual reality VR stands out as a transformative tool that promises to redefine the transmission and absorption of information Bringing VR to education is not just a technical innovation but a pedagogical revolution It represents a shift from passive learning to active learning where students are not only observers but participants in their educational journey

Creating Immersive Learning Experiences Through Virtual Reality VR provides a comprehensive and up to date overview of the application of VR technologies in education highlighting the gaps in current literature future research goals and facilitating interdisciplinary collaboration among technologists educators and policymakers to better address the complex challenges of the effective adoption of these technologies This book provides case studies evidence based knowledge and practical guidance regarding ethical concerns theoretical foundations practical applications and pedagogical strategies

Enhancing Art, Culture, and Design With Technological Integration Khosrow-Pour, Mehdi, 2018-04-06 As technology becomes an important part of human computer interaction improving the various conceptual models and understanding of technological interfaces in design becomes essential
