Vaincre Les Peurs La Philosophie Comme Amour De La Sagesse:

Vaincre les peurs Luc Ferry, 2006 *The Mystery and the World* Maria Clara Bingemer, 2017-02-23 In *The Mystery and the World* Maria Clara Bingemer explores how the place of religion in society has dramatically shifted since the Enlightenment. The modern era is characterised by a major change in humanity's fundamental desires that means that reason has taken the place of faith. Human beings in their ongoing search for a scientific understanding of the world have drifted away from seeking any essence of transcendence in their lives. Bingemer examines this transition and how especially in the postmodern era it has led to technology and superficial happiness becoming all important as opposed to the more sacred sense of contentment that governed us for centuries prior to the Enlightenment. In her discussion however Bingemer demonstrates that we as humans have not lost our innate desire to believe in a higher power and that even in our world of instant satisfaction we still need to fill the void left by religion. Through well researched analysis of the modern era and discussion of some of the mystics of more recent times she reveals to readers how our religious belief whilst changed is not dead and is still an important aspect of our existence.

Intuition, Creativity, Innovation Henri Samier, 2019-02-06 This book explores the scientific perspective on the concept of intuition particularly in relation to vibration music and emotion. Taking a multimedia approach it contains practical exercises that will help the reader to achieve greater intuition and develop their capacity for creativity and innovation. The exercises in this book come from over a hundred workshops worldwide in both business and higher education. They include for example the Mind Map of Me an introspective exercise designed to develop trust and confidence in the self and the reader's own intuition. The book opens the field of possibilities to the reader offering encouragement and motivation to explore new approaches and techniques. With these tools intuition can become a valuable ally in everyday life.

Fabien Eboussi Boulaga, la philosophie du Muntu KOM Ambroise (sous la direction de), 2009-05-01 Philosophe et chercheur rigoureux dans divers domaines des sciences sociales Fabien Eboussi Boulaga s'est imposé ses premiers travaux comme un maître penser. Sa penséenonce une critique radicale du mimétisme pistologique qui encombre les humanités et les sciences sociales sur l'Afrique. Soucieux d'éviter que sa pensée soit victime du syndrome de l'inutilité ou utilisée comme caution morale des pratiques immorales il cultive activement la discrétion préférant la modestie de l'ascèse aux fastes de la volupté. Son oeuvre gravite autour de la problématique du Muntu l'homme africain elle s'articule sur une herméneutique du sujet et une ontologie de la vérité. Le Muntu n'est pas une essence mais une histoire une trajectoire un horizon de possibilités. Eboussi est un spectateur engagé c'est-à-dire un citoyen libre et raisonnable un aiguiser de consciences. Sa pensée se déroule comme un subtil contrepoint qui réconcilie la rigueur méthodologique des classiques grecs latins et la verve critique des terroirs d'Afrique partir desquels elle s'nonce.

La révélation du mystère Michel Salamolard, 2010 *S'exercer au bonheur - La voie des stoïciens* Gilles Prod'homme, 2011-07-07 Aimer la vie avec les stoïciens Être heureux goûter au bonheur même un peu ici et maintenant qui n'en a pas envie. En revenant la philosophie ouvrons nous au message des stoïciens.

Pourquoi eux particulièrement Parce que ces penseurs antiques ont osé faire du bonheur leur but pratique et su confectionner un véritable arsenal d'exercices pour atteindre sérénité et équilibre D'une plume vive Gilles Prod homme nous accompagne dans une saisissante plongée au cœur du stoïcisme Il évoque les idées les auteurs les influences les techniques et développe au passage une salutaire perspective critique Mais surtout il expose les résultats d'une entreprise totalement inédite la présentation de recueils d'expériences des fameux exercices stoïciens Ces recueils sont autant de pistes d'action dont chacun peut s'inspirer au quotidien et montrent que le stoïcisme s'il est un enseignement majeur est surtout une voie vers le bonheur Car ainsi que le dit Epictète la philosophie consiste vivre les principes et non les reciter Ouvrage publié avec le concours du Centre national du livre

La foi au Dieu des chrétiens, gage d'un authentique humanisme François-Xavier Nguyen Tien Dung, Marcel Neusch, 2017-05-12 De plus en plus de travaux de fond reviennent aujourd'hui sur Henri de Lubac figure majeure de la théologie catholique au XX^e siècle et l'un des inspirateurs du concile Vatican II On mesure mieux son apport à la théologie de la Révélation la redécouverte des Pères des premiers siècles la dimension de l'ecclésiologie qu'il a pu développer Ce livre revient sur un aspect suggestif de l'œuvre du cardinal de Lubac le dialogue critique avec l'humanisme athée avec les pensées de Marx ou Nietzsche en particulier dans son fameux ouvrage Le drame de l'humanisme athée La thèse défendue par de Lubac face aux critiques du christianisme par les pensées athées psychologiques sociologiques ou idéologiques est que l'idée de Dieu ne vient que de Dieu et non de l'homme Le christianisme est humaniste car Celui qui se révèle est entré en humanité par l'incarnation parce que l'image que l'homme porte en lui est celle de Dieu et que quoique blessée cette image est recréée en Christ
