Commission on Marihuana and Drug Abuse,1973 **HBO's Girls** Betty Kaklamanidou,Margaret Tally,2014-03-25 Young women today have achieved as much as and in many cases far exceeded males in both educational and occupational terms While this presents many opportunities it also creates confusion in terms of re negotiating traditional gender roles The fictional representation of

young women in recent film and television shows demonstrates how these tensions created by the specific sociopolitical climate of the post recession era are being worked out. One specific television show focused on intelligent young women caught up in these contradictions is *Girls*. The show explores the lives of four female friends living in Brooklyn two years after their college graduation as they try to support themselves with low paying jobs and deal with various struggles around relationships, careers and friendships. The HBO half hour sitcom created, written by and starring Lena Dunham, premiered on April 15th 2012 after receiving a flood of initial buzz and criticism both positive and negative. This collection is the first to discuss the cultural, political and social implications of this innovative series. The contributors examine *Girls* through a variety of lenses: sexual, racial, gender relationships between the male and female characters as well as friendships between the young women. This variety of perspectives explains why *Girls* has had the profound cultural impact it has made in the short time it has been on the air.
