Perdigao, Mark Pizzato, 2010 How do twentieth and twenty first century artists bring forth the powerful reality of death when it exists in memory and lived experience as something that happens only to others *Death in American Texts and Performances* takes up this question to explore the modern and postmodern aesthetics of death Working between and across genres the contributors examine literary texts and performance media including Robert Lowell's *For the Union Dead* Luis Valdez's *Dark Root of a Scream* Amiri Baraka's *Dutchman* Thornton Wilder's *Our Town* John Edgar Wideman's *The Cattle Killing* Toni Morrison's *Sula* and *Song of Solomon* Don DeLillo's *White Noise* and *Falling Man* and HBO's *Six Feet Under* As the contributors struggle to convey the artist's crisis of representation they often locate the dilemma in the gap between artifice and nature where loss is performed and where remembering is sometimes literally reenacted through the bodily gesture While artists confront the impossibility of total recovery or transformation so must the contributors explore the gulf between real corpses and their literary or performative reconstructions Ultimately the volume shows both artist and critic grappling with the dilemma of showing how the aesthetics of death as absence is made meaningful in and by language

Speaking with the Dead in Early America Erik R. Seeman, 2019-10-04 In late medieval Catholicism mourners employed an array of practices to maintain connection with the deceased most crucially the belief in purgatory a middle place between heaven and hell where souls could be helped by the actions of the living In the early sixteenth century the Reformation abolished purgatory as its leaders did not want attention to the dead diminishing people s devotion to God But while the Reformation was supposed to end communication between the living and dead it turns out the result was in fact more complicated than historians have realized In the three centuries after the Reformation Protestants imagined continuing relationships with the dead and the desire for these relations came to form an important and since neglected aspect of Protestant belief and practice In *Speaking with the Dead in Early America* historian Erik R Seeman undertakes a 300 year history of Protestant communication with the dead Seeman chronicles the story of Protestants relationships with the deceased from Elizabethan England to puritan New England and then on through the American Enlightenment into the middle of the nineteenth century with the explosion of interest in Spiritualism He brings together a wide range of sources to uncover the beliefs and practices of both ordinary people especially women and religious leaders This prodigious research reveals how sermons elegies and epitaphs portrayed the dead as speaking or being spoken to how ghost stories and Gothic fiction depicted a permeable boundary between this world and the next and how parlor songs and funeral hymns encouraged singers to imagine

communication with the dead Speaking with the Dead in Early America thus boldly reinterprets Protestantism as a religion in which the dead played a central role **Science Fiction in the Real World** Norman Spinrad,1990 Updates Lentz s previous work which Library journal said was producers screenwriters cinematographers special effects technicians make up artists art directors III film index IV TV series index V alternate title index Science fiction writer Spinrad presents 13 essays some previously published examining particular works in the genre aspects of the industry and how they influence each other Topics include critical standards the visual expression in comic books and movies modes of content politics and profiles of individual authors No bibliography Paper edition unseen 14 95 Annotation copyrighted by Book News Inc Portland OR

Haunted Serbia David Norris,2016-05-05 Haunting is what happens when the past is disturbed and the victims of previous violence who are thought to be buried and forgotten are brought back to the present and made to live again Serbian fiction writers of the 1980s exhume the ghosts of the past re remembering the cruelty of the twentieth century reinterpreting the heroic role of the Partisans and the extraordinary measures taken to defend Yugoslavia s recently won independence and socialist revolution Their uncanny and ghostly imagery challenges the assumptions of the master discourse promoted by the country s orthodox communist authorities and questions the historical roots of social and cultural identities The instability of this period of transition is deepened during the wars of the 1990s when authors turn from the memory of past violence to face the ferocious brutality of new conflicts The haunting evocations in their work continue to articulate fresh uncertainties as the trappings of modern civilization are stripped away and replaced by the destructive logic of civil war The past returns once more with renewed energy in the struggle to make sense of a vastly changed world **Ghosts - Classic Monsters of**

e L. Bergland, 2015-05-01 Although spectral Indians appear with startling frequency in US literary works until now the implications of describing them as ghosts have not been thoroughly investigated In the first years of nationhood Philip Freneau and Sarah Wentworth Morton peopled their works with Indian phantoms as did Charles Brocken Brown Washington Irving Samuel Woodworth Lydia Maria Child James Fenimore Cooper William Apess Nathaniel Hawthorne and others who followed During the late 19th and early 20th centuries Native American ghosts figured prominently in speeches attributed to Chief Seattle Black Elk and Kicking Bear Today Stephen King and Leslie Marmon Silko plot best selling novels around ghostly Indians and haunted Indian burial grounds Ren e L Bergland argues that representing Indians as ghosts internalizes them as ghostly figures within the white imagination Spectralization allows white Americans to construct a concept of American nationhood haunted by Native Americans in which Indians become sharers in an idealized national imagination However the problems of spectralization are clear since the discourse questions the very nationalism it constructs Indians who are transformed into ghosts cannot be buried or evaded and the specter of their forced disappearance haunts the American imagination Indian ghosts personify national guilt and horror as well as national pride and pleasure Bergland tells the story of a terrifying and triumphant American aesthetic that repeatedly transforms horror into glory national dishonor into national pride **Afterlife and Narrative in Contemporary Fiction**
