the Internal Revenue Code of 1986 ,1987 A Storied Wilderness James W. Feldman,2011-07-01 The Apostle Islands are a solitary place of natural beauty with red sandstone cliffs secluded beaches and a rich and unique forest surrounded by the cold blue waters of Lake Superior But this seemingly pristine wilderness has been shaped and reshaped by humans The people who lived and worked in the Apostles built homes cleared fields and cut timber in the island forests The consequences of human choices made more than a century ago can still be read in today s wild landscapes A Storied Wilderness traces the complex history of human interaction with the Apostle Islands In the 1930s resource extraction made it seem like the islands natural beauty had been lost forever But as the island forests regenerated the ways that people used and valued the islands changed human and natural processes together led to the rewilding of the Apostles In 1970 the Apostles were included in the national park system and ultimately designated as the Gaylord Nelson Wilderness How should we understand and value wild places with human pasts James Feldman argues convincingly that such places provide the opportunity to rethink the human place in nature The Apostle Islands are an ideal setting for telling the national story of how we came to equate human activity with the loss of wilderness characteristics when in reality all of our cherished wild places are the products of the complicated interactions between human and natural history Watch the book trailer <https://www.youtube.com/watch?v=frECwkA6oHs>

Stockton's Path to Bankruptcy Dennis Cochran,2019-08-21 Stockton s Path to Bankruptcy How our city government grabbed and abused power and partnered with the newspaper to mislead the community By Dennis Cochran Stockton California grew out of the Gold Rush of 1849 It became a thriving city through agriculture and manufacturing It boasts excellent schools and colleges and has a world renowned symphony and art museum But in July 2012 it was the largest American city to file for bankruptcy and currently is 8 on Forbes Most Dangerous Cities in America Stockton s Path to Bankruptcy is an insider look at how the city fell apart In 1993 Stockton won enterprise zone designation from the state

government to be used to revitalize the depressed city center Dennis Cochran was one of several locals invited to submit an incentive idea He proposed a volunteer staffed graffiti cleanup program Cleaning graffiti is an easy cost effective way to discourage crime and promote beautification Initially encouraged by the enterprise zone Cochran soon learned that it was corrupt and mismanaged with unclear policies skyrocketing permit fees and local businesses bullied until they abandoned the center entirely Like many citizens Cochran was on the outside of the local government his offers of help ignored and his good advice rejected In just under twenty years Stockton's local government protected by a local newspaper destroyed the trust of its citizens Cochran chronicles every bureaucratic twist and depravity from the city losing 43 000 a day plundering public safety funds to finance a ballpark to stealing land from a local church Stockton didn't become bankrupt because of the financial bubble or housing crisis Stockton went bankrupt because of its public officials abuse of power and attitude of hostility towards the community Exposing mistakes acts as a disinfectant and Stockton's Path to Bankruptcy is a powerful aid to helping heal Stockton and serves as a warning to citizens of other cities
