Handbook of Research on Teaching the English Language Arts Douglas Fisher, Diane Lapp, 2017-11-06. Now in its fourth edition, the Handbook of Research on Teaching the English Language Arts, sponsored by the International Literacy Association and the National Council of Teachers of English, remains at the forefront in bringing together prominent scholars, researchers, and professional leaders to offer an integrated perspective on teaching the English language arts and a comprehensive overview of research in the field. Reflecting important developments since the publication of the third edition in 2010, this new edition is streamlined and completely restructured around big ideas in the field related to theoretical and research foundations, learners in context, and new literacies. A Companion Website extends and enhances the Handbook with a wealth of additional resources.

The Handbook of Research on Teaching the English Language Arts, Fourth Edition, addresses all of the language arts within a holistic perspective: speaking, listening, language, writing, reading. It is well-grounded and balanced in theory and research while promoting validated practice. Features authors who are known for their expertise and who represent diversity in culture, years in the profession, and geographic location. Gives attention to special populations and instructional contexts. Includes new media literacies. Has the authority of a research handbook while remaining practical for students in masters and doctoral classes.

Writing and Reading Mysteries Helen Hoffner, 2006-03-31. The book contains lesson plans, worksheets, and book lists which can be used to enhance literacy instruction. All the lessons are linked to McREL standards and benchmarks.

Print Literacy Development Victoria Purcell-Gates, Erik Jacobson, Sophie Degener, Victoria Purcell-Gates, 2009-06-30. Is literacy a social and cultural practice or a set of cognitive skills to be learned and applied? Literacy researchers who have differed sharply on this question will welcome this book, which is the first to address the critical divide. The authors lucidly explain how we develop our abilities to read and write and offer a unified theory of literacy development that places cognitive development within a sociocultural context of literacy practices. Drawing on research that reveals connections between literacy as it is practiced outside of school and as it is taught in school, the authors argue that students learn to read and write through the knowledge and skills that they bring with them to the classroom, as well as from the ways that literacy is practiced in their own different social communities. The authors argue that until literacy development can be understood in this broader way, educators will never be able to develop truly effective literacy instruction for the broad range of sociocultural communities served by schools.
