Duranty, 2015-06-10 Joe Milner grew up in the seaside community of Newport RI At eighteen he left school and enlisted in the United States Navy His preference was to serve aboard Submarines He completed submarine training in New London Conn His first duty assignment was aboard a the USS _____ Due to an electrical injury he missed the Subs departure The was lost at sea withy all hands Thus his nickname was born Lucky Reassigned to the USS Astro SS309 he wrote and kept a recollection of the Subs patrol in the Bay of Toyko *Save Our Souls: Rescues Made by U.S. Submarines During World War II* Douglas E. Campbell, 2016-04-02 At last count nearly 2 400 people can claim that their lives were saved by a U S submarine during World War II Of that number 523 Allied aviators could claim that distinction after crashing their aircraft into the sea and being saved by a submarine operating in the Lifeguard League The remaining number were a collection of other military and civilian personnel each with a story to tell and now able to tell their grand children Some of those rescued went on to retire as senior military officers including U S Navy Admirals some back to missionary work some to manage large companies in later years some to philanthropic endeavors to pay everyone back for saving their lives Appendix A is an intensely researched index of nearly 2 200 names of those saved **Final Patrol** Don Keith, 2006-10-03 During World War II the U S Navy s submarine service suffered the highest casualty percentage of all the American armed forces losing one in five submariners But despite the odds these underwater warriors accounted for almost 60 percent of Japanese shipping losses and were a major factor in winning the war 16 U S submarines and one German U Boat that saw action during WWII are now open to the public Most have been restored and authentically equipped Final Patrol takes a fascinating look at these subs and the personal stories of the brave sailors who lived fought and often died in them Now visitors can climb into these cramped steel cylinders peer through their torpedo tubes and imagine diving under the sea perhaps for the last time to stalk a fanatical enemy who threatened our nation s freedom **Sub** Mark Roberts, 2008-04-01 True tales of life and death as told by those who fought in the briny depths From the undersea warfare of World War II through the Cold War stand offs in the deep to the cutting edge technology of the modern U S Navy submarines have evolved into the front line of our nation s defense at sea And the men who sail them have become heroes above and below the waves These are their stories Compiled from interviews and recollections from submarine veterans and accompanied by detailed photos and illustrations of both man and machine at work Sub is a gripping chronicle of undersea warfare as told by those who know firsthand what it means to

drop through the hull of a boat to sink into the dark freezing waters of the deep and to have death never more than one torpedo away **Naval Reservist** ,1957 **Navy and Marine Corps Awards Manual** United States. Bureau of Naval Personnel, **The Japanese Submarine Force and World War II** Akihiko Yoshida,2013-01-15 When first published in 1995 this book was hailed as an absolutely indispensable contribution to the history of the Pacific War Drawing heavily from Japanese sources and American wartime intercepts of secret Japanese radio messages a noted American naval historian and a Japanese mariner painstakingly recorded and evaluated a diverse array of material about Japan s submarines in World War II The study begins with the development of the first Japanese 103 ton Holland type submergible craft in 1905 and continues through the 1945 surrender of the largest submarine in the world at the time the 5300 ton I 400 class that carried three airplanes Submarine weapons equipment personnel and shore support systems are discussed first in the context of Japanese naval preparations for war and later during the war Both successes and missed opportunities are analyzed in operations ranging from the California coast through the Pacific and Indian Oceans to the coast of German occupied France Appendixes include lists of Japanese submarine losses and the biographies of key Japanese submarine officers Rare illustrations and specifically commissioned operational maps enhance the text **Japanese Submarines in World War Two** Terry C Treadwell,2022-06-30 The Imperial Japanese Navy developed the submarine faster than any other country in the world But as a result of rivalries between the two military hierarchies the Army and the Navy they never utilized the submarine to its full extent Nevertheless during the Second World War Japan deployed a number of unique submarines These included the Type B1 which carried a Yokosuka E14Y1 reconnaissance seaplane in a watertight capsule attached to the deck of the submarine One of these aircraft carried out two bomb attacks on a forest in Oregon by dropping six incendiary bombs taking the war to the American mainland The use of aircraft from submarines as scout planes proved not to be as successful as hoped mainly because of the difficulty after launching the aircraft of it finding the submarine again in the vast Pacific and Indian Oceans The Japanese also developed the giant I 400 class submarines that carried three Sieran bombers There were other notable actions involving IJN submarines This included I 17 that attempted to shell unsuccessfully an oil refinery off the coast of Santa Barbara causing a major panic along the West Coast of America Also memorable are the midget submarines that attempted to attack Pearl Harbor and the submarines that carried the one man submarines Kaitens and the human torpedoes The submarine losses suffered by the Japanese Navy as the war progressed when Allied and in particular US destroyers and aircraft hunted them down are all recorded in this comprehensive account of a fascinating element of the war at sea

Days of Steel Rain Brent E. Jones,2021-05-11 This intimate true account of Americans at war follows the epic drama of an unlikely group of men forced to work together in the face of an increasingly desperate enemy during the final year of World War II Sprawling across the Pacific this untold story follows the crew of the newly built vengeance ship USS Astoria named for her sunken predecessor lost earlier in the war At its center lies U S Navy Captain George Dyer who vowed to

return to action after suffering a horrific wound He accepted the ship's command in 1944 knowing it would be his last chance to avenge his injuries and salvage his career Yet with the nation's resources and personnel stretched thin by the war he found that just getting the ship into action would prove to be a battle Tensions among the crew flared from the start Astoria's sailors and Marines were a collection of replacements retreads and older men Some were broken by previous traumatic combat most had no desire to be in the war yet all found themselves fighting an enemy more afraid of surrender than death The reluctant ship was called to respond to challenges that its men never could have anticipated From a typhoon where the ocean was enemy to daring rescue missions a gallant turn at Iwo Jima and the ultimate crucible against the Kamikaze at Okinawa they endured the worst of the final year of the war at sea Days of Steel Rain brings to life more than a decade of research and firsthand interviews depicting with unprecedented insight the singular drama of a captain grappling with an untested crew and men who had endured enough amidst some of the most brutal fighting of World War II Throughout Brent Jones fills the narrative with secret diaries memoirs letters interpersonal conflicts and the innermost thoughts of the Astoria men and more than 80 photographs that have never before been published Days of Steel Rain weaves an intimate unforgettable portrait of leadership heroism endurance and redemption

Japanese Submarine Losses to Allied Submarines in World War II Vernon J. Miller, 1999-07 *The Men* Stephen Leal Jackson, 2010 Submarine duty during World War II was one of the most statistically deadly physically demanding and emotionally challenging assignments in the U S Navy The boats had few crew comforts and war patrols typically thirty to sixty days in length were so exhausting that the submarine sailors often got a month of rest after each patrol What would motivate men to volunteer for this unmistakably difficult and dangerous job This is the question that *The Men* will answer using the oral histories of enlisted submarine veterans a collection of letters of one sailor who did not return and other primary sources These volunteers from diverse locales and backgrounds ignored the danger accepted the privations and exalted in the camaraderie Their excitement fear and humble heroism is captured in their own words the real story of the undersea war in the Pacific told by the men who fought it A veteran of the United States Navy Stephen Leal Jackson spent eight years in the submarine force serving on the USS Los Angeles SSN 688 and the USS Florida SSBN 728 Jackson's service included several Western Pacific cruises to the oceans lands and ports described in *The Men* A lifelong student of American history Jackson's ongoing research concentrates specifically on World Wars I and II Jackson received his Master of Arts in American History from Providence College and is currently in the Ph D program at Salve Regina University Jackson has served as the primary spokesperson for a major electrical utility on nuclear and environmental issues His unique perspective as a onetime navy enlisted submariner trained historian and skilled communicator allows Jackson to provide clear and easy access to the fascinating experiences of the men who fought the undersea battles during World War II

The USS Swordfish George J. Billy, 2020-01-17 Among the more than 260 American submarines that patrolled the Pacific during World War II the USS Swordfish in 1941 was the first to sink

a Japanese armed merchant ship marking the beginning of the submarine's colorful history. A series of seven commanders led Swordfish's 13 war patrols. Each skipper had a distinct leadership style. Some were successful in sinking enemy ships; others returned to port empty handed. Yet all patrols risked dangerously close encounters with the enemy and the unforgiving nature of the open sea. Drawing on archival sources and interviews with veteran sailors, this first full length history of the Swordfish provides detailed accounts of each patrol and covers the mysterious disappearance of the legendary submarine on its final mission.

Gerald T. DeForge, 1981 Steel Boats Iron Men - Submarine League Mike H. Rindskopf, 1994 **Submarine Operational Effectiveness in the 20th Century** Captain John F. O'Connell, USN (RET.), 2011-08-18

The submarine emerged as a serious weapons system during the First World War 1914-1918. During that conflict Germany with its unrestricted submarine warfare campaign of 1917 nearly drove Great Britain to the negotiating table. Its U-boats sank 6,196 ships of 13,438,632 gross register tons. Despite post-war attempts to ban the submarine from warfare it survived. Both Italy and Germany used submarines covertly during the Spanish Civil War 1936-1939. This book Part Two of a series discusses the use of submarines during World War Two 1939-1945 and their effectiveness. It focuses principally on two strategic submarine campaigns. The first is about German U-boats against British and neutral commerce. That campaign finally failed during the Battle of The Atlantic in 1943. The second deals with American submarines against Japanese shipping from Southeast Asia to the home islands, a campaign that successfully isolated Japan from its sources of raw materials and foodstuffs during 1944 and effectively defeated Japan.

Consolidated-Vultee PB4Y-2 Privateer Alan C. Carey, 2005

Consolidated Vultee Aircraft Corporation's Convair attempt to make a few design changes to its famous B-24 Liberator for the U.S. Navy in 1942 eventually evolved into the PB4Y-2 Privateer, a 70,000 pound patrol bomber equipped with state of the art electronics gear, armed with twelve .50 caliber machine guns and the capability to deliver bombs, depth charges and guided missiles. Beginning with the development and production of the aircraft, this book presents an in depth examination of the patrol bomber's entire operational history from 1942 to the present. Containing over 260 photographs and line art, the book covers the PB4Y-2's service with the U.S. Navy, French Air Force, Republic of China Air Force, various countries of Latin America and finally as a slurry bomber for aerial fire fighting companies.
