Conjunction.World Elly Flippen,2024-10-05 A must read I cannot recommend highly enough Bring a lot of highlighters This book has been blowing me away I d say it s a must read So far it has validated certain thoughts I ve had and experienced regarding OBE NDE UAPs the cover up our history consciousness and brought new ideas forward Very well written and organized with detailed footnotes with references You could almost use it like a guidebook in research It s amazing how much we actually have in common with one another My uncle the renowned Ingo Swann was a man of mystery and intrigue As one of the US Government s top psychic spies he held secrets that few knew and even fewer understood One day he confided in me with a hushed tone and a glint in his eye We are not alone on this planet This wasn t entirely new to me I had encountered numerous inexplicable events but I couldn t believe they were actually real It just seemed too impossible Years later however my curiosity drove me to learn more Amidst this learning adventure I stumbled upon a declassified briefing from 1973 stating a group of Nazis was to blame for releasing an arcane terror upon the world Unless one is deeply rooted in the essence of the divine the paper concludes they will not survive this perilous journey into the ominous world of existence In other words if you want to survive in the actual reality we live in you better be well equipped with some heavy duty light protection After that moment my inquisitiveness was sparked I dove in headfirst compiling theories about non human entities From potential extraterrestrial origins to interdimensional beings I unraveled a complex narrative about advanced technology that could account for the anomalous aerial and aquatic vehicles we have witnessed But my explorations didn t end there I also embarked on a journey to understand the evolution of Remote Viewing also known as psychic spying Along the way I discovered fascinating connections between Remote Viewing UFO bases and encounters with non human beings I then found myself venturing into mysterious lands shrouded in secrecy Places where barriers and

gateways intertwined where haunted spaces lingered and temporal distortions shifted reality I encountered apparitions witnessed unexplainable events and had enigmatic experiences with UFOs UAPs which I began to view as vision quests As my investigation progressed I uncovered hidden secrets about our world first hand accounts of untold tales from the lands where reality blends with the unknown the places where the mirror has cracks

Collins,Phillip D. Collins,2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond

Lewis, 2003 James R Lewis has written the first book to deal explicitly with the issue of how emerging religions legitimate themselves He contends that a new religion has at least four different though overlapping areas where legitimacy is a concern making converts maintaining followers shaping public opinion and appeasing government authorities The legitimacy that new religions seek in the public realm is primarily that of social acceptance Mainstream society s acknowledgement of a religion as legitimate means recognizing its status as a genuine religion and thus recognizing its right to exist Through a series of wide ranging case studies Lewis explores the diversification of legitimation strategies of new religions as well the tactics that their critics use to de legitimate such groups Cases include the Movement for Spiritual Inner Awareness Native American prophet religions spiritualism the Church of Christ Scientist Scientology Church of Satan Heaven s Gate Unitarianism Hindu reform movements and Soka Gakkai a new Buddhist sect Since many of the issues raised with respect to newer religions can be extended to the legitimation strategies deployed by established religions this book sheds an intriguing new light on classic questions about the origin of all religions **Journal of the House of Representatives of the United States** United States.
