, Albert Camus in the 21st Century ,2008-01-01 In the first decade of a new century this collection of bilingual essays examines Camus s continuing popularity for a new generation of readers In crucial respects the world Camus knew has changed beyond all recognition decolonization the fall of the Iron Curtain a new era of globalization and the rise of new forms of terrorism have all provoked a reconsideration of Camus s writings If the Absurd once struck a particular chord Meursault is as likely now to be seen as a colonial figure who expresses the alienation of the settler from the land of his birth Yet this increasing orthodoxy must also take account of the reasons why a new community of Algerian readers have embraced Camus Equally once isolated because of his anti Communist stance Camus has been taken up by disaffected members of the Left convinced that new forms of totalitarianism are abroad in the world This volume which ranges from interpretations of Camus s literary works his journalism and his political writings will be of interest to all those seeking to re evaluate Camus s work in the light of ethical and political issues that are of continuing relevance today *Social Structure and Forms of Consciousness* István Mészáros,2011 In *The Dialectic of Structure and History Volume Two of Social Structure and Forms of Consciousness* Istvan Meszaros brings the comprehension of our condition and the possibility of emancipatory social action beyond the highest point reached to date Building on the indicatory flashes of conceptual lightning in the *Grundrisse* and other works of Karl Marx Meszaros sets out the relations of structure and agency individual and society base and superstructure nature and history in a dialectical totality open to the future The project is brought to its conclusion by

means of critique an analysis that shows not only the inadequacies of the thought critiqued but at the same time their social historical cause The crucial questions are addressed through critique of the highest point of honest and brilliant thought in capital s ascending phase that of Adam Smith Kant and Hegel as well as the irrationalities and dishonesty of the apologists of the capital system s descending phase such as Hayek and Popper The dead ends of both Levi Strauss s structuralism and post modernism arising from their denial of history are placed in their context as capital apologetics What Meszaros the leading Marxist philosopher of our times has achieved is of world historical importance He has cleared the philosophical ground to permit the illumination of a path to transcend the destructive death spiral of the capital system **Social Structure and**
