Kitsuregawa,Hidehiko Tanaka,2003-06-29 I wish to welcome all of you to the International Symposium on High Performance Computing 2000 ISHPC 2000 in the megalopolis of Tokyo After having two great successes with ISHPC 97 Fukuoka November 1997 and ISHPC 99 Kyoto May 1999 many people have requested that the symposium would be held in the capital of Japan and we have agreed I am very pleased to serve as Conference Chair at a time when high performance computing HPC has a significant influence on computer science and technology In particular HPC has had and will continue to have a significant impact on the advanced technologies of the IT revolution The many conferences and symposiums that are held on the subject around the world are an indication of the importance of this area and the interest of the research community One of the goals of this symposium is to provide a forum for the discussion of all aspects of HPC from system architecture to real applications in a more informal and personal fashion Today we are delighted to have this symposium which includes excellent invited talks tutorials and workshops as well as high quality technical papers

River Flow 2020 Wim Uijttewaal,Mário J. Franca,Daniel Valero,Victor Chavarrias,Clàudia Ylla Arbós,Ralph Schielen,Alessandra Crosato,2020-08-27 Rivers form one of the lifelines in our society by providing essential services such as availability of fresh water navigation energy ecosystem services and flood conveyance Because of this essential role mankind has interfered continuously in order to benefit most and at the same time avoid adverse consequences such as flood risk and droughts This has resulted in often highly engineered rivers with a narrow set of functions In the last decades rivers are increasingly considered in a more holistic manner as a system with a multitude of interdependent processes River research and engineering has therefore added to the river fundamentals also themes like ecohydraulics consequences of climate change and urbanisation River Flow 2020 contains the contributions presented at the 10th conference on Fluvial Hydraulics River Flow 2020 organised under the auspices of the Committee on Fluvial Hydraulics of the International Association for Hydro Environment Engineering and Research IAHR What should have been a lively physical gathering of researchers students and practitioners was converted into an online event as the COVID 19 pandemic hindered international travelling and large gatherings of people Nevertheless the fluvial hydraulics community showed their interest and to be very much alive with a high number of participations for such event Since its first edition in 2002 in Louvain la Neuve this series of conferences has found a large and loyal audience in the river research and engineering community while being also attractive to the new researchers and young professionals This is highlighted by the large number of contributions applying for the Coleman award for young researchers and also by the number of applications and attendants to the Master Classes which are aimed at young researchers and students River Flow 2020 aims to provide an updated overview of the ongoing research in this wide range of topics and contains five major themes which are focus of research in the fluvial environment river fundamentals the digital river the healthy river extreme events and rivers under pressure Other highlights of River Flow 2020 include the substantial number of interdisciplinary

subthemes and sessions of special interest The contributions will therefore be of interest to academics in hydraulics hydrology and environmental engineering as well as practitioners that would like to be updated about the newest findings and hot themes in river research and engineering
