quantitative historical analysis of any New York City natural area's birdlife and spans the century and a half from 1872 to 2016. Only Manhattan's Central and Brooklyn's Prospect Parks have preliminary species lists not revised since 1967 and the last book examining the birdlife of the entire New York City area is now more than fifty years old. This book updates the avifaunas of those two parks, the Bronx and other New York City boroughs. It treats the 301 bird species known to have occurred within its study area, Van Cortlandt Park and the adjacent Northwest Bronx, plus 70 potential additions. Its 123 breeding species are tracked from 1872 and supplemented by quantitative breeding bird censuses from 1937 to 2015. Gains and losses of breeding species are discussed in light of an expanding New York City inexorably extinguishing unique habitats.

Red Men and White Owen Wister, 2015-10-22. Comprised in this book are eight thrilling stories set in the American West, linked by the themes of life and manners and occasionally a commonality of characters. Written in a time of disunity of America by the master of Western literature, this text details a society not too far removed from that of the contemporary. It's a story about Indians and soldiers and events west of Missouri. Written by the father of western fiction, Owen Wister, this piece contains many actual accounts of famous events: The visit of Young Man Afraid of His Horses to the Little Big Horn and the rise and fall of the young Crow impostor General Crook's surprise of E. G. and many other occurrences, noble and ignoble, are told as they were told by those who saw them. A thrilling collection of some of the best western fiction, this book is a must have for any fan of the genre. Owen Wister was an American writer and giant of western fiction. Originally published in 1895, this book is republished with an introductory biography of the author. WALNECK'S CLASSIC CYCLE TRADER, JULY 1998

Causey Enterprises, LLC, **Settlers of the American West** Mary Ellen Snodgrass, 2015-03-10. Depictions of the American west in literature, art, and film perpetuate romantic stereotypes of the pioneers: the gold-crazed 49er, the intrepid sodbuster, the woodsman, the farmwife, and the lawman. This tunnel vision of American history has shortchanged the whaler, the assayer, the innkeeper, and the inventor. The westward advance of the trailblazers created demand for a gamut of unsung adventurers: surveyors, financiers, politicians, surgeons, entertainers, grocers, and midwives who built communities and businesses in the wilderness amid clashes with Indians, epidemics, floods, droughts, and outlawry. Chronicling the worthy deeds, ethnicities, languages, and lifestyles of ordinary people who survived a stirring period in American history, this book provides biographical information for hundreds of individual pioneers on the North American frontier from the Mississippi River Valley as far west as Alaska. Appendices list pioneers by state or country of departure, destination, ethnicity, religion, and occupation. A chronology of pioneer achievements places them in perspective.
