Encyclopedia of Library and Information Science Allen Kent, 1986-02-28 The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes This thorough reference set written by 1300 eminent international experts offers librarians information computer scientists bibliographers documentalists systems analysts and students convenient access to the techniques and tools of both library and information science Impeccably researched cross referenced alphabetized by subject and generously illustrated the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field

Object-Oriented Behavioral Specifications Haim Kilov, William Harvey, 2007-08-20 Object Oriented Behavioral Specifications encourages builders of complex information systems to accelerate their move to using the approach of a scientific discipline in analysis rather than the approach of a craft The focus is on understanding customers needs and on precise specification of understanding gained through analysis Specifications must bridge any gaps in understanding about business rules among customers Subject Matter Experts and computer people must inform decisions about reuse of software and systems and must enable review of semantics over time Specifications need to describe semantics rather than syntax and to do that in an abstract and precise manner in order to create software systems that satisfy business rules The papers in this book show various ways of designing elegant and clear specifications which are reusable lead to savings of intellectual effort time and money and which contribute to the reliability of software and systems Object Oriented Behavioral Specifications offers a fresh treatment of the object oriented paradigm by examining the limitations of traditional OO methodologies and by describing the significance of competing trends in OO modeling The book builds on four years of successful OOPSLA workshops 1991 1995 on behavior semantics This book deals with precise specifications of what is accomplished by the business and what is to be done by a system The book includes descriptions of successful use of abstract and precise specification in industry It draws on the experience of experts from industrial and academic settings and benefits from international participation Collective behavior neglected in some treatment of the OO paradigm is addressed explicitly in this book The book does not take reuse of specifications or software for granted but furnishes a foundation for taking as rigorous an approach to reuse decisions as to precise specifications in original developments

Technology and English Studies James A. Inman, Beth L. Hewett, 2020-07-24 In scholarship about technology and English studies there are a number of first person narratives that suggest what may be termed traditional professional paths That is they chronicle the positive influence of a particular technology class professor or publication and suggest that it inspired a distinct and rewarding professional path What is missing is the rest of the story alternate ways that individuals have come to do work in technology and English studies and analysis of what this means for paths others might pursue *Technology and*

English Studies Innovative Professional Paths meets this need The volume begins with definitions of its three central terms technology English Studies and professional paths Chapters are organized in four sections reflecting both a chronological progression and thematic professional development The Past as the Future Searching the Academy Pushing Boundaries and Forging Beyond As a forerunner in addressing professionalization across the domains that comprise technology and English studies it will prove foundational for many readers with non traditional or otherwise alternate backgrounds who are working out what professional paths might be available to them Technology and English Studies Innovative Professional Paths is an important professional development resource for professors instructors and graduate students across the field of English studies including rhetoric and composition computers and writing computer assisted language learning literary and linguistic computing literary studies English education technical communication linguistics writing centers second language education ESL and creative writing [Research Awards Index](#) , **Research Grants Index** National Institutes of Health (U.S.).
