Police Work and Identity Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street

Demenageries, 2015-06-29 Demenageries Thinking of Animals after Derrida is a collection of essays on

animality following Jacques Derrida's work. The Western philosophical tradition separated animals from men by excluding the former from everything that was considered proper to man: laughing, suffering, mourning, and above all, thinking. The animal has traditionally been considered the absolute Other of humans. This radical otherness has served as the rationale for the domination, exploitation, and slaughter of animals. What Derrida called *la pensée de l'animal*, which means both thinking concerning the animal and animal thinking, may help us understand differently such apparently human features as language, thought, and writing. It may also help us think anew about such highly philosophical concerns as differences, otherness, the end of history, and the world at large. Thanks to the ethical and epistemological crisis of Western humanism, animality has become an almost fashionable topic. However, *Demenageries* is the first collection to take Derrida's thinking on animal thinking as a starting point, a way of reflecting not only on animals but starting from them in order to address a variety of issues from a vast range of theoretical perspectives: philosophy, literature, cultural theory, anthropology, ethics, politics, religion, feminism, postcolonialism, and of course posthumanism.

Counter-Insurgency in Nigeria Akali Omeni, 2017-09-08. This book offers a detailed examination of the counter-insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017. Based on extensive fieldwork conducted with military units in Nigeria, Counter-Insurgency in Nigeria has two main aims. First, it seeks to provide an understanding of the Nigerian military's internal role, a role that today, as a result of internal threats, pivots towards counter-insurgency. The book illustrates how organizational culture, historical experience, institutions, and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past. The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents, specifically plans and operations between June 2011 and April 2017. Within this second theme, emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare. A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram, and this book aims to disperse that veil of secrecy. Furthermore, the work's analysis of the air force's role in counter-insurgency is unprecedented within the literature on military warfare in Nigeria. This book will be of great interest to students of military studies, counter-insurgency, counter-terrorism, African politics, and security studies in general.

Union and Regional Economic Communities in the different processes of constitutional change Ultimately the discussions aim to explore how the processes of constitutional change whether inevitable and unavoidable or contrived can be conducted in a manner that does not undermine or threaten the efforts to entrench democracy constitutionalism good governance and respect for the rule of law on the African continent

Race and Crisis Suman Gupta, Satnam Virdee, 2020-05-21 As the European Union seemingly teetered from a financial crisis to an immigration crisis around 2015 and onwards discourses of race appeared to congeal in various member states In some instances these came with familiarly essentialist constructions in others these were refracted cautiously through concerns about security national and cultural integrity distribution of public resources and employment and so on New political alignments surfaced on the back of such concerns and established organizations changed their agendas accordingly The border regimes of EU member states became increasingly fraught both in terms of their everyday operations and in terms of the close attention and vociferous debates they attracted In most instances the internal and external borders of the EU hardened and with increasing frequency the cohesion of the transnational union seemed on the verge of fracturing Indeed very real fissures opened up with secessionist moves and referendums Through each step in this juncture of upheavals the significance of race has been reiterated in tangential ways and sometimes with unabashed straightforwardness This volume explores this juncture around 2015 and the constructions of race and of crisis therein for specific contexts and from a range of disciplinary perspectives The introduction gives an overview of the juncture focusing on the rise of Eurosceptic nationalist political

parties and their electoral success Subsequent chapters are addressed to the management and representation of immigrants crossing the Mediterranean border regimes in the Czech Republic the narratives that converged on Brexit riots in England antagonistic popular movements in Sweden racialization in crisis management in Italy perceptions of migrants in Greece and how race may be structured in and challenged through classroom pedagogy This book was originally published as a special issue of Ethnic and Racial Studies **Flight** ,1983
