Botha, Smuts and the Great War Antonio Garcia, Ian van der Waag, 2023-10-30 In *Botha Smuts and the Great War 1914 1918* authors Antonio Garcia and Ian Van Der Waag conducted painstaking research in South Africa and the United Kingdom to produce this first of a kind volume on the wartime roles of South African prime minister General Louis Botha and his deputy General Jan Smuts

These very different men appealed to different audiences Botha's nuance and emotional intelligence complemented Smuts's intellectualism Thrown into a world conflagration in August 1914 and facing internal rebellion and the threat posed by German troops on the borders they led South Africa's Union Defence Force Both Botha and Smuts commanded in the field Steadily the South African army they commanded benefiting from wartime training sometimes in the field gained resilience experience and battle hardiness adapting to the conditions of the campaigns and the demands of the tasks South Africa's campaigns were complex and divergent starting with the invasion of neighbouring German South West Africa to neutralise enemy radio stations and so aid the security of the South Atlantic Suddenly suspended following the outbreak of the Afrikaner Rebellion the campaign recommenced in January 1915 Following its conclusion an infantry brigade raised for Western Front service was diverted to Egypt before facing near annihilation at Delville Wood Simultaneously a large South African force fighting alongside British African and Indian forces overcame German resistance in East Africa whilst a brigade of field artillery and later the Cape Corps served in Egypt and Palestine Moreover approximately 6 500 South Africans served in the British Army Royal Flying Corps Royal Air Force and in the Royal Navy Although lionised during the war by a British public hungry for heroes there is a different side to Botha and Smuts Shunned by Afrikaner nationalists at the time they have remained divisive figures Responsible for the enactment of the Land Act of 1913 which shaped South Africa's socio-economic and political landscape Botha's statues in Cape Town Durban and Pretoria were vandalised on a number of occasions between 2015 and 2022 and there were recent calls for Smuts's statues to be removed Behind Botha's charming attractive facade and Smuts's stoic machine were two very human imperfect and quite probably inconsiderate men Together they provide a wonderful lens through which to examine the potent forces of the early twentieth century world and the country they hoped to forge Myopic compatriots had constrained their plans but it was the outbreak of war in 1914 that offered the most significant opportunities and brought the most adverse challenges They fought insurmountable odds and achieved great victories at home and abroad but also made startling errors and ultimately in classical fashion risked being crushed by the weight of the world they tried to create

Reappraising the Life and Legacy of Jan C. Smuts David Boucher, Bongani Ngqulunga, 2024-08-01 In this book the authors cover both familiar and unfamiliar themes One of the principal themes running throughout the book addresses head on the deficiency in the literature highlighted by Saul Dubow namely the question of racism and Smuts's reluctance to implement native policies that may have averted future problems rather than postpone them We see throughout a gap between the rhetoric and policy and between policy and practice in its implementation Amongst the familiar themes that are reappraised are Smuts's successes and failures in policies and leadership domestically and internationally This wide ranging volume re-evaluates myriad aspects of Smuts's life philosophy political career and legacy An important and timely book exploring one of South Africa's most consequential and controversial leaders Luc Andre Brunet Contemporary International History The Open University The book is a great contribution to South African cultural and social history With the military element covered in other publications the editors and authors have focussed on the less well trodden aspects of Smuts's history including but not limited to discussions on the atomic bomb counter revolution film early cabinets racialism trusteeship greatness political philosophy racial segregation and myth making The editors have skilfully continued the longer political discussion reflecting on the myth and legacy of a prominent South African Smuts Antonio Garcia Stellenbosch University coauthor of *Botha Smuts and the First World War* co-founder *Underground Strategy* **Transnational Histories**

of Southern Africa's Liberation Movements Jocelyn Alexander, JoAnn McGregor, Blessing-Miles Tendi, 2020-05-21 *Transnational Histories of Southern Africa's Liberation Movements* offers new perspectives on southern Africa's wars of national liberation drawing on extensive oral historical and archival research Assuming neither the primacy of nationalist loyalties as they exist today nor any single path to liberation the book unpicks any notion of a straightforward imposition of Cold War ideologies or strategic interests on liberation wars This approach adds new dimensions to the rich literatures on the Global Cold War and on solidarity movements The contributors trace the ways that ideas and practices were made adopted and circulated through time and space through a focus on African soldiers politicians and diplomats The book also asks what motivated the men and women who crossed borders to join liberation movements how Cold War influences were acted upon interpreted and used and why certain moments venues and relations took on exaggerated importance The connections among liberation movements between them and their hosts and across an extraordinarily diverse set of external actors reveal surprising exchanges and lasting legacies that have too often been obscured by the assertion of monolithic

national histories Tracing an extraordinarily diverse set of interactions and exchanges Transnational Histories of Southern Africa s Liberation Movements will be of great interest to scholars of Southern Africa Transnational History the Cold War and African Politics The chapters were originally published as a special issue of the Journal of Southern African Studies

Since the end of the Cold War humanitarian interventions have continued to evolve and respond to a wide range of political crises. These insightful essays focus on the challenges associated with interventions when facing conflict and human rights violations, unmitigated systematic violence, state rebuilding, human mobility and dislocation. Each chapter is linked to the rest through three defining themes that permeate the book: the evolution of humanitarian interventions in a global era, the limits of sovereignty and the ethics of interventions, and the politics of post-intervention rebuilding and humanitarian engagement. The authors incorporate a variety of case studies including Kosovo, Timor-Leste, Syria, Libya, and Iraq, and examine the complexity of interventions across their different dimensions, including relevant doctrines such as R2P, Use of Force, and Human Security.

Regional Powers and Contested Leadership Hannes Ebert, Daniel Flemer, 2018-03-19 When do rising powers fail to establish legitimate regional leadership and instead face contestation by their regional challengers? This book investigates how and why the BRICS (Brazil, Russia, India, China, and South Africa) project leadership in South America, post-Soviet Eurasia, South and Southeast Asia, and sub-Saharan Africa respectively, and in what ways their main regional challengers respond. Based on a systematic conceptualization of the types and drivers of leadership and contestation, the authors assess the impact of the rise of regional powers on weaker states' security, sovereignty, and status, as well as the consequences of contestation for regional economic development and stability, and the regional powers' bid for greater voice in global governance. By illuminating the sources and effects of power politics in five regions that are increasingly pivotal for the emerging world order, the volume offers a global comparative analysis of contemporary regional contested leadership that will interest scholars and students of international affairs, foreign policy, and area studies.

Africans in Exile Nathan Riley Carpenter, Benjamin N. Lawrance, 2018-09-10 This rich volume will interest scholars and students of Africa, the African diaspora, world history, legal history, and international affairs. Lorelle Semley, author of *To Be Free and French: Citizenship in France's Atlantic Empire*, The enforced removal of individuals has long been a political tool used by African states to create generations of asylum seekers, refugees, and fugitives. Historians often present such political exile as a potentially transformative experience for resilient individuals, but this reading singles the exile out as having an exceptional experience. This collection seeks to broaden that understanding within the global political landscape by considering the complexity of the experience of exile and the lasting effects it has had on African peoples. The works collected in this volume seek to recover the diversity of exile experiences across the continent. This corpus of testimonials and documents is presented as an archive that provides evidence of a larger shared experience of persecution and violence. This consideration reads exiles from African colonies and nations as active participants within, rather than simply as victims of, the larger global diaspora. In this way, exile is understood as a way of asserting political dissidence and anti-imperial strategies. Broken into three distinct parts, the volume considers legal issues, geography as a strategy of anticolonial resistance, and memory and performative understandings of exile. The experiences of political exile are presented as fundamental to an understanding of colonial and

postcolonial oppression and the history of state power in Africa
