Features

Wide-angle G Lens

The HXR-MC2000E comes equipped with a sophisticated G Lens that incorporates Sony's unique optical design technology and quality control, delivering exceptional performance on a par with some of the best lenses in the industry. The HXR-MC2000E itself is optimised to perfectly complement the G Lens with an advanced image sensor and Sony's famous image processing technology. This improves picture performance whether zooming in on the action, or getting a perspective on the big picture with the 29.8 mm wide angle in Video mode (35mm equivalent).

Exmor R™ CMOS Sensor with ClearVid Array

The HXR-MC2000E's Exmor R™ CMOS sensor is capable of producing superb image quality even in low-light conditions. Sony's unique imaging system incorporates exclusive back-illuminated technology that doubles sensitivity compared to conventional CMOS sensors, providing a dramatic boost in low-light performance. Autofocus technology is also enhanced to perform better in low-light conditions, so the G-lens can quickly achieve sharp focus on a moving subject. This superb performance in dimly indoor scenes and outdoor night scenes is matched by excellent results in bright daylight.

Optical SteadyShot with Active Mode

This feature ensures smooth movement while recording footage in many challenging shooting situations. In addition, Sony's innovative 3-Way Shake-Canceling technology adds electronic roll stability for even smoother video capture. This latest version of image stabilisation technology realizes images that are up to 10x steadier for wide angle shooting than conventional Optical SteadyShot images. As the user zooms in, an intelligent digital image stabiliser starts to blend in and work together with its optical counterpart to effectively reduce camera shake. This technology also reduces shake in the rolling direction that commonly occurs when shooting while walking.

Manual Lens Ring with Assignable Parameters

Using the assignable lens ring, users can manually adjust key parameters like Focus, White Balance, Exposure, AE Shift, Iris priority and Shutter Speed
