Governing through Crime in South Africa Gail Super, 2016-04-22 This book deals with the historic transition to democracy in South Africa and its impact upon crime and punishment It examines how the problem of crime has emerged as a major issue to be governed in post apartheid South Africa Having undergone a dramatic transition from authoritarianism to democracy from a white minority to black majority government South Africa provides rich material on the role that political authority and challenges to it play in the construction of crime and criminality As such the study is about the socio cultural and political significance of crime and punishment in the context of a change of regime The work uses the South African case study to examine a question of wider interest namely the politics of punishment and race in neoliberalizing regimes It provides interesting and illuminating empirical material to the broader debate on crime control in post welfare

neoliberalizing post transition polities **Shadow Force** David Isenberg, 2008-12-30 From their limited use in China during World War II for example to their often clandestine use in Vietnam ferrying supplies before the war escalated in 1964 and 1965 when their role became more prominent and public private military contractors PMCs have played made essential contributions to the success and failures of the military and United States Today with an emphasis on force restructuring mandated by the Pentagon the role of PMCs and their impact on policy making decisions is at an all time peak This work analyzes that impact focusing specifically on PMCs in Iraq since the fall of Saddam Hussein in 2003 Isenberg dissects their responsibilities the friction that exists between contractors and military commanders problems of protocol and accountability as well as the problems of regulation and control that PMC companies create for domestic politics Isenberg organizes his work thematically addressing all facets of PMCs in the current conflict from identifying who the most influential companies are and how they got to that point to the issues that the government military and contractors themselves face when they take the field He also analyzes the problem of command control and accountability It is no secret that PMCs have been the source of consternation and grief to American military commanders in the field As they work to establish more routine protocols in the field however questions are also being raised about the role of the contractors here at home The domestic political arena is perhaps the most crucial battleground on which the contractors must have success After all they make their corporate living off of taxpayer dollars and as such calls for regulation have resonated throughout Washington D C growing louder as the profile of PMCs increases during the current conflict **Official Year Book of the Union [of South Africa] and of**

Basutoland, Bechuanaland Protectorate, and Swaziland ,1925 *Women Police Unfurled in Pakistan: Perspective,*

Status and Prospective Saima Manzoor Arain, 2014-06-14 Author has trailed emergence of women police reflected Education Competence and Performance with transgenerational roots of wisdom from Constable to IGP psycho socio culture mentors to find freedom justice and unity This has made her a trailblazer to become an unequivocal representative to reflect the conduct of police not maintaining Justice Principle of Unity not a catchword within its ranks and of freedom not the muse of Cohesive Ethics Theorem This book embeds two modes of existence the male operational mode which concentrates on material reliance power and chauvinism and is the basis of such evils as greed for money and domination and the female operational mode which is based in affection in the pleasure of sharing distress of the female and constructive activity where she concludes that female talent is still untapped Hence this book reflects distinct psychological sketch of the Women Police and pushes readers to muse on it and opens bold horizons of intellectual endeavors **Careers in Southern Africa** Hermann

Spangenberg, 1980 **Exploring Contemporary Police Challenges** Sanja Kutnjak Ivković, Jon Maskály, Christopher M. Donner, Irena Cajner Mraović, Dilip K. Das, 2022-12-30 Policing in the 21st century is becoming increasingly complicated as economic political social and legal circumstances continue to compel police organizations to evolve To illustrate the complexity of policing in the 21st century and cover themes common to police organizations around the world *Exploring Contemporary Police Challenges A Global Perspective* is organized into six sections which cover the key policing challenges across the globe Based on US President Barack Obama's 2015 Task Force's organization into six broad pillars this volume contains contributions from policing experts focusing on Building Trust and Legitimacy Providing Policy and Oversight Utilizing Technology and Social Media Developing Community Policing and Crime Reduction Providing Police Training and Education and Facilitating Officer Wellness and Safety Scholarly analyses and discussions of these issues in 16 countries on 6 continents offer a global perspective on policing in the 21st century This volume simultaneously enhances the scope of policing scholarship and demonstrates that no country can sidestep the need to adjust to these rapid and profound changes

Laboring for Rights Gerald Hunt, 2009 A global look at labor unions and sexual minorities **Official Year Book of the Union** South Africa. Office of Census and Statistics, 1921 *Police Work and Identity* Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a

range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street Official Year Book of the Union and of Basutoland, Bechuanaland Protectorate and Swaziland South Africa. Office of Census and Statistics,1921 No 1 contains statistics mainly for the period 1910 1916 The National Agricultural Directory 2011 ,2010

Official Year Book of the Union and of Basutoland, Bechuanaland Protectorate, and Swaziland ,1919 Police Integrity in South Africa Sanja Kutnjak Ivkovich,Adri Sauerman,2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement In 1994 as the country s apartheid system was replaced with a democratic order the new government faced the significant challenge of transforming the South African police force into a democratic police agency the South African Police Service SAPS that would provide unbiased policing to all the country s people More than two decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping police integrity A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations
