through which to examine the potent forces of the early twentieth century world and the country they hoped to forge. Myopic compatriots had constrained their plans but it was the outbreak of war in 1914 that offered the most significant opportunities and brought the most adverse challenges. They fought insurmountable odds and achieved great victories at home and abroad but also made startling errors and ultimately in classical fashion risked being crushed by the weight of the world they tried to create.

A Question of Loyalty Alon Peled, 1998. States that use military conscription and whose ethnic minorities have relatives in hostile countries face a Trojan horse dilemma: the state demands military service but mistrusts the loyalty of subjugated community members. Some armies brutalize ethnic recruits; others simply reject them. Alon Peled compares the experiences of Malay Muslim soldiers in Singapore, Arabs in Israel, and blacks in South Africa. Drawing on his interviews with senior officers and policymakers, he examines the histories of these armies and their levels of ethnic integration. He also suggests how minority soldiers can be gradually recruited, integrated, and promoted. Ethnic soldiers can only succeed, Peled argues, when officers formulate manpower policy on the basis of combat needs rather than political concerns. Peled highlights the behind-the-scenes roles played by officers and ethnic leaders. He advocates new policies for change, recommending that the leaders of ethnically torn countries such as the republics of the former Soviet Union and states in central Africa allow professional officers to introduce soldiers from mistrusted ethnic groups through a process of phased integration.

Bantu Holomisa Bantu Holomisa, Eric Naki, 2018-11-01. Bantu Holomisa is one of South Africa's most respected and popular political figures. Born in the Transkei in 1955, he attended an elite school for the sons of chiefs and headmen. While other men his age were joining Umkhonto we Sizwe, Holomisa enrolled in the Transkeian Defence Force and rose rapidly through the ranks. As head of the Transkeian Defence Force, Holomisa led successive coups against the homeland regimes and then became the head of its military government. He turned the Transkei into a liberated space, giving shelter to ANC and PAC activists and declaring his intention of holding a referendum on the reincorporation of the Transkei into South Africa. These actions brought him immense popularity, and the military dictator became a liberation hero for many South Africans. When the unbanned ANC held its first election for its national executive in 1994, Holomisa, who had by now joined the party, received the most votes, beating long-time veterans and party stalwarts. He and Mandela developed a close relationship, and Holomisa served in Mandela's cabinet as deputy minister for environmental affairs and tourism. As this biography reveals, the relationship with both Mandela and the ANC broke down after Holomisa testified before the Truth and Reconciliation Commission among other issues that Stella Sigcau and her cabinet colleagues had accepted a bribe from Sol Kerzner. After being expelled from the ANC, Holomisa formed his own party, the United Democratic Movement, with Roelf Meyer as leader. The UDM Holomisa has played a prominent role in building coalitions among opposition parties and in leading important challenges to the dominant party. This biography, written in collaboration with

Soldiers in a Storm The Armed Forces in South Africa s Democratic Transition is a study of the role of the military in the creation and development of South Africa s new post apartheid system Philip Frankel asserts that the armed forces played a far greater role in the end of apartheid than is currently acknowledged in the literature and that the relatively peaceful negotiations that ended apartheid would not have been possible without the participation of the South African National Defense Force and two major liberation armies Frankel also examines the topics of military disengagement civilianization post authoritarian political behavior on the part of militaries and the process of democratic consolidation He also discusses how many of these themes have been explored in the context of Latin America and he points out that this is the only book that places these themes within the context of South Africa This is an important case study with universal implications

Built on the Ruins of Empire Blake Whitaker,2022-06-07 During the Cold War the British government oversaw the transition to independence of dozens of colonies Often the most challenging aspect of this transition was the creation of a national army from colonial forces In *Built on the Ruins of Empire* Blake Whitaker examines this process in Kenya and Zambia and how it set the course for the creation of the army in Zimbabwe He also looks at three themes as they intersect in African military history British decolonization race relations and the Cold War While the transition to independence was a difficult process in places such as Ghana and Nigeria it was compounded by the racial tensions in Kenya Zambia and

Zimbabwe All three were settler colonies home to a sizable community of white Europeans who controlled the levers of power and economic prosperity Built on the Ruins of Empire focuses on the difficulties that arose in creating a cohesive and apolitical military force in these racially charged Cold War environments and demonstrates that the challenges faced by the British training missions in Kenya and Zambia taught London important lessons about the emerging postcolonial world Whitaker uniquely analyzes the successes and failures of the British military assistance programs and their quest to solidify British influence while examining how Britain's position and influence in the wider world was fading just as Zimbabwe was achieving independence *Soldiers Without Politics* Kenneth W.
