South African Military Recruitment 2015 Project:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

The Second World War in East Africa, 1940-1941, 2024-12-16 As a first of its kind, this edited collection brings together a variety of chapters dealing with different topics that address where possible most of the participants involved in or affected by the conflict, as well as different, often neglected aspects of the East Africa campaign of the Second World War. In doing so, this volume not only makes a definite contribution to the broader historiography and to our understanding of a diverse, complex Second World War, but will also serve as an impetus for further topical research on an important yet neglected campaign of the war.

Manpower and the Armies of the British Empire in the Two World Wars Andrew L. Brown, Douglas E.

Delaney, Mark Frost, 2021-06-15 In the first and only examination of how the British Empire and Commonwealth sustained its soldiers before, during and after both world wars, a cast of leading military historians explores how the empire mobilized manpower to recruit, work, care for veterans and transform factory workers and farmers into riflemen. Raising armies is more than counting people, putting them in uniform and assigning them to formations. It demands efficient measures for

recruitment registration and assignment It requires processes for transforming common people into soldiers and then producing officers staffs and commanders to lead them It necessitates balancing the needs of the armed services with industry and agriculture And often overlooked but illuminated incisively here raising armies relies on medical services for mending wounded soldiers and programs and pensions to look after them when demobilized Manpower and the Armies of the British Empire in the Two World Wars is a transnational look at how the empire did not always get these things right But through trial error analysis and introspection it levied the large armies needed to prosecute both wars Contributors Paul R Bartrop Charles Booth Jean Bou Daniel Byers Kent Fedorowich Jonathan Fennell Meghan Fitzpatrick Richard S Grayson Ian McGibbon Jessica Meyer Emma Newlands Kaushik Roy Roger Sarty Gary Sheffield Ian van der Waag **Lone-actor Terrorism** Jacob C. Owolabi, 2023 An examination of the divergent developmental legacies of forced settlement and colonial occupation on both sides of the Black Atlantic world The European powers that colonized much of the world over the last few hundred years created a variety of social systems in their various colonies In *Ruling Emancipated Slaves and Indigenous Subjects* Olukunle P Owolabi explores the divergent developmental trajectories of Global South nations that were shaped by forced settlement where European colonists imported African slaves to establish large scale agricultural plantations or by colonial occupation which resulted in the exploitation of indigenous non white populations Owolabi shows that most forced settlement colonies emerged from European domination with higher levels of education attainment greater postcolonial democratization and favorable human development outcomes relative to Global South countries that emerged from colonial occupation after 1945 To explain this paradox he examines the distinctive legal administrative institutions that were used to control indigenous colonial subjects and highlights the impact of liberal reforms that expanded the legal rights and political agency of former slaves following

abolition Spanning three centuries of colonial history and postcolonial development this is the first book to systematically examine the distinctive patterns of state building that resulted from forced settlement and colonial occupation in the Black Atlantic world **Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)** Union of International Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events Respecting Toleration Peter Balint,2017 The question of toleration matters more than ever The politics of the twenty first century is replete with both the successes and all too often the failures of toleration Yet a growing number of thinkers and practitioners have argued against toleration Some believe that liberal democracies are better served by different principles such as respect of or recognition for people s ways of life Others argue that because the liberal state should be entirely neutral or indifferent towards people s ways of life it can no longer be tolerant it has no grounds on which it can object and so there is nothing left to tolerate Respecting Toleration provides a new original and provocative take on the question of toleration and its application to the politics of contemporary diversity Peter Balint argues for both the conceptual coherence and normative desirability of toleration and neutrality He argues that it is these principles which best realise the basic liberal good of people living their lives as they see fit rather than appealing to principles of recognition or respect for difference While those who criticised liberalism s failings in dealing with the claims of diversity had justification it is the tenets of traditional liberalism that hold the answer Respecting Toleration argues that if one cares about people living divergent lives then it is liberal toleration that should be respected by legislators and policy makers and not people s differences Team Diversity and Inclusion in Defence and Security Barbara T. Waruszynski,Yantsislav Yanakiev,Daniel P. process between the government and Myanmar Army and some two dozen ethnic armed organizations which had long been fighting for greater autonomy from the militarized and Burman dominated state This book brings together chapters by Burmese and foreign experts and contributions from community and political leaders who discuss the meaning of citizenship in Myanmar Burma The book explores citizenship in relation to three broad categories issues of identity and conflict debates around concepts and practices of citizenship and inter and intra community issues including Buddhist Muslim relations This is the first volume to address these issues understanding and resolving which will be central to Myanmar s continued transition away from violence and authoritarianism

Black Tommies Ray Costello,2015-12-04 Offers an overview of the role played by Black British soldiers in the First World War

The State of Palestine Philip Leech,2016-10-26 The Palestinian national movement reached a dead end and came close to disintegration at the beginning of the present century This critical analysis of internal Palestinian politics in the West Bank traces the re emergence of the Palestinian Authority s established elite in the aftermath of the failed unity government and examines the main security and economic agendas pursued by them during that period Based on extensive field research interviews and participant observation undertaken across several sites in Nablus and the surrounding area it provides a bottom up interpretation of the Palestinian Authority s agenda and challenges the popular interpretation that its governance represents the only realistic path to Palestinian independence As the first major account of the Palestinian Authority s political agenda since the collapse of the unity government this book offers a unique explanation for the failure to bring a Palestinian state into being and challenges assumptions within the existing literature by addressing the apparent incoherence between mainstream debates on Palestine and the reality of conditions there This book is a key addition to students and scholars interested in Politics Middle Eastern Studies and International Relations

Military Integration during War-to-Peace Transitions Lesley Anne Warner,2023-06-07 In the 1960s only 10% of peace agreements included some element of political military accommodation namely military integration From Burundi to Bosnia to Zimbabwe that number had increased to over 50% by the 2000s However relatively little is understood about this dimension of power sharing often utilized during war to peace transitions Through an examination of the case of South Sudan between 2006 and 2013 this book explores why countries undergoing transitions from war to peace decide to integrate armed groups into a statutory security framework This book details how integration contributed to short term stability in South Sudan allowing the government to overcome wartime factionalism and consolidate political military power prior to the referendum on self determination in 2011 It also examines how the integration process in South Sudan was flawed by its open ended nature and lack of coordination with efforts to right size the military and transform the broader defense sector and how this led the military to fragment during periods of heightened political competition Furthermore the book explains why integration ultimately failed in South Sudan and identifies the wider lessons that could be applied to current or future war to peace transitions This book will be of great interest to students of

war and conflict studies peacebuilding post conflict reconstruction African security issues and International Relations in general as well as to practitioners *Global Force* David Forsyth,2016-04-08 This volume emerged from an international research colloquium jointly organised by National Museums Scotland and the Scottish Centre for Diaspora Studies University of Edinburgh funded by the Scottish Government and administered by the Royal Society of Edinburgh Historians and museum curators from Australia Canada New Zealand and South Africa were invited to join with their Scottish counterparts to consider the functioning and the meaning of military Scottishness in different Commonwealth countries and in Britain from the late Victorian period to the present day with a particular focus on the impact of the First World War Another key objective was to throw light on the hidden culture of social networking which potentially operated behind local regiments and military units amongst Scotland s global diaspora This edited collection provides a comparative overview of the nineteenth century emergence of military Scottishness and explores how the construction and performance of Scottish military identity has evolved in different Commonwealth countries over the late nineteenth and twentieth centuries In particular it looks at the ways in which Scottish volunteer regiments in Commonwealth countries variously sought to draw upon align themselves with or at certain key moments redefine the assertions of martial identity which Highland regiments represented **Ten Years of Boko Haram in Nigeria** J. Tochukwu Omenma,Ike E. Onyishi,Aloysius-Michaels Okolie,2023-01-27 This book provides a contemporary overview of Boko Haram s activities Since Boko Haram emerged in 2002 media driven narratives as well as social scientific methodologies have been increasingly applied to draw generalisable conclusions on what goals the groups have pursued what strategies it has used for these purposes and the counter campaign strategies authorities have pursued But from 2009 to 2018 Boko Haram has pursued high intensity violence assassinations bombing kidnappings beheading or threats of violence conscriptions and territorial occupation This makes it imperative to deepen and broaden our understanding of the groups activities toward a problem solving and policy relevant analysis Previously published in *Security Journal* Volume 33 issue 3 September 2020 *Mugabeism?* Sabelo J. Ndlovu-Gatsheni,2015-12-26 What is distinctive about this book is its interdisciplinary approach towards deciphering the complex meanings of President Gabriel Mugabe of Zimbabwe making it possible to evaluate Mugabe from a historical political philosophical gender literal and decolonial perspectives It is concerned with capturing various meanings of Mugabeism
