Post-conflict Reconstruction and Development in Africa Theo Neethling, Heidi Hudson, 2013-10-01 Some of the bloodiest conflicts occur on the African continent An Afrocentric perspective is therefore a suitable starting point for research into the possible strategies for post conflict peacebuilding The authors of this book consider the problems around the concept of post conflict and the blurring of military and civilian roles analysing the UN roles in the DRC and Sierra Leone as well as the African Union Mission in Burundi The main context of the book however is the South African Army's strategy for PCRD in Africa which was developed with the African Union's 2006 Post Conflict Reconstruction and Development Needs Assessment Guide in mind This book emanates from this plan It therefore also explores South Africa's policy imperatives to integrate development projects and peace missions involving the military as well as civilian organisations While this book is not intended as an instruction manual it hopes to ignite an understanding of the particular processes required to develop a

sustainable and cohesive post conflict peacebuilding strategy within the African environment "Keep Your Head Down" Norma Kriger, 2007 Recommendations Background The legal framework The Immigration Act violations and legal gaps resulting in human rights abuses Employment laws violations and legal gaps resulting in human rights abuses Conclusion Acknowledgements *Confronting Past Human Rights Violations* Chandra Lekha Sriram, 2004-08-12 This book examines what makes accountability for previous violations more or less possible for transitional regimes to achieve It closely examines the other vital goals of such regimes against which accountability is often balanced The options available are not simply prosecution or pardon as the most heated polemics of the debate over transitional justice suggest but a range of options from complete amnesty through truth commissions and lustration or purification to prosecutions The question then is not whether or not accountability can be achieved but what degree of accountability can be achieved by a given country The focus of the book is on the politics of transition what makes accountability more or less feasible and what strategies are deployed by regimes to achieve greater accountability or alternatively greater reform The result is a more nuanced understanding of the different conditions and possibilities that countries face and the lesson that there is no one size fits all prescription that can be handed to transitional regimes **The Quest for Quality of Work Life** Rigard Steenkamp, Samuel Wagan Watson, A. This Week in South Africa, 1995 *From Memory to Marble* Elizabeth Rankin, Rolf Michael Schneider, 2020-02-10 For the first time the 92 metre frieze of the Voortrekker Monument in Pretoria one of the largest historical narratives in marble has been made the subject of a book The pictorial narrative of the Boer pioneers who conquered South Africa's interior during the Great Trek 1835-52 represents a crucial period of South Africa's past Conceptualising the frieze both reflected on and contributed to the country's socio-political debates in the 1930s and 1940s when it was made The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid as well as its place in post-apartheid heritage The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument Based on unpublished documents drawings and models these processes are unfolded step by step from the earliest discussions of the purpose and content of the frieze through all the stages of its design to its shipping to post-war Italy to be copied into marble from Monte Altissimo up to its final installation in the Monument The book examines how visual representation transforms historical memory in what it chooses to recount and the forms in which it is depicted The second volume expands on the first by investigating each of the twenty-seven scenes of the frieze in depth providing new insights into not only the frieze but also South Africa's history Francois van Schalkwyk of African Minds co-publisher with De Gruyter writes *From Memory to Marble* is an open access monograph in the true sense of the word Both volumes of the digital version of the book are available in full and free of charge from the date of publication This approach to publishing democratises access to the latest scholarly publications across the globe At the same time a book such as *From Memory to Marble* with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials demands reception of a more traditional kind that is on the printed page For this reason the book is likewise available in print as two separate volumes The printed and digital books should not be seen as separate incarnations each brings its own advantages working together to extend the reach and utility of *From Memory to Marble* to a range of interested readers
