**Meaning-Focused Materials for Language Learning** Marina Bouckaert,Monique Konings,Marjon van Winkelhof,2019-01-10 This publication is a result of the joint conference held by MATSDA and Fontys University of Applied Sciences the Netherlands in Tilburg in June 2017 MATSDA is an international materials development association founded in 1993 which serves to bring together researchers teachers materials developers and publishers in an effort to improve the effectiveness of language learning materials The 2017 conference centred on issues related to the development of meaning

focused materials for language learning and attracted presenters from twenty five countries stretching from Greenland to Brazil These issues are reflected in the chapters in this volume with each one focusing on a different aspect of meaning focused materials and many of them introducing the reader to previously unexplored facets of the theory of meaning focused instruction and its application to materials development The contributions here are of essential value to post graduate students to teachers to materials developers and to researchers They are written to be academically rigorous but at the same time accessible to newcomers to the field and to experienced experts alike Step Ahead 2 Textbook (Special/Express/NA) ,

*Step Ahead 4 Activity Book (Express)* Robyn Mann,2004 *Teaching Language Arts to English Language Learners* Anete Vásquez,Angela L. Hansen,Philip C. Smith,2013-03-12 This thoroughly revised and updated edition of *Teaching Language Arts to English Language Learners* provides readers with the comprehensive understanding of both the challenges that face ELLs and ways in which educators might address them in the language arts classroom The authors offer proven techniques that teachers can readily use to teach reading writing grammar and vocabulary as well as speaking listening and viewing skills A complete section is also devoted to ways teachers can integrate all five strands of the language arts curriculum into a comprehensive unit of study with meaningful accommodations for ELLs An annotated list of web and print resources completes the volume making this a valuable reference for language arts teachers to meet the challenges of including all learners in effective instruction New features to this edition include An updated and streamlined Part 1 which provides an essential overview of ELL theory in a language arts specific context Additional practical examples of language arts exercises all of which are closely aligned with the Common Core State Standards New pedagogical elements in Part 3 including tips on harnessing new technologies discussion questions and reflection points Updates to the web and print resources in Part 4 *The Power of Identity and Ideology in Language Learning* Peter I. De Costa,2016-05-09 This critical ethnographic school based case study offers insights on the interaction between ideology and the identity development of individual English language learners in Singapore Illustrated by case studies of the language learning experiences of five Asian immigrant students in an English medium school in Singapore the author examines how the immigrant students negotiated a standard English ideology and their discursive positioning over the course of the school year Specifically the study traces how the prevailing standard English ideology interacted in highly complex ways with their being positioned as high academic achievers to ultimately influence their learning of English This potent combination of language ideologies and circulating ideologies created a designer student immigration complex By framing this situation as a complex the study problematizes the power of ideologies in shaping the trajectories and identities of language learners Studies in the History of the English Language Donka Minkova,Robert Stockwell,2008-08-22 The 19 papers in this volume are a selection from a UCLA conference intended to take stock of the state of the field at the beginning of the new millenium and to stimulate research in English Historical Linguistics The authors are predominantly U S scholars The fields represented

include morphosyntax and semantics grammaticalization discourse analysis dialectology lexicography the diachronic study of code switching phonology and metrics

**The Foundations and Versatility of English Language Teaching (ELT)** Christoph Haase, Natalia Orlova, Joel Cameron Head, 2018-12-14 While the field of ELT studies sees continued horizontal and vertical diversification it is also time to take stock of what has made the discipline the field it presents itself as today As horizontal diversification we can identify trends that involve a continued inclusion of more fields of study into the family of methods and approaches of ELT Especially in the technical sense e learning has matured and new forms of online learning and teaching have emerged be it via teleconferences or short message services for vocabulary training However a massive extension has occurred within the so called social media The vertical dimension affects a depth of analysis not seen even a decade ago when for example small and relatively simple learner corpora were used for linguistic analysis that rarely went

beyond rote frequency counts The increasing sophistication in these two dimensions is also reflected in the research papers collected in this volume

**The Typology of Asian Englishes** Lisa Lim, Nikolas Gisborne, 2011-10-05 When considering the structure of New Englishes which have evolved in multilingual mostly post colonial contexts of Asia thus Asian Englishes the significant factors to be considered are 1 the varieties of the English lexifier that entered the local context 2 the nature of transmission of English to the local population and 3 the local i.e. substrate languages of the community in which the New English emerges This third factor is the focus of the five papers in this volume they investigate the structure of Asian varieties of English by exploring the relationship between the typological profile of substrate languages in the specific linguistic ecology and the grammatical features of the emerging contact variety of English The contributions to this volume were originally published in *English World Wide* 30 2 2009

Language Myths and the History of English Richard J. Watts, 2011-02-01 *Language Myths and the History of English* aims to deconstruct the myths that are traditionally reproduced as factual accounts of the historical development of English Using concepts and interpretive sensibilities developed in the field of sociolinguistics over the past 40 years Richard J Watts unearths these myths and exposes their ideological roots His goal is not to construct an alternative discourse but to offer alternative readings of the historical data Watts raises the question of what we mean by a linguistic ideology and whether any discourse a hegemonic discourse an alternative discourse or even a deconstructive discourse can ever be free of it The book argues that a naturalized discourse is always built on a foundation of myths which are all too easily taken as true accounts
