Lamari, Franco Montanari, Anna Novokhatko, 2020-08-10 This volume examines whether dramatic fragments should be approached as parts of a greater whole or as self contained entities It comprises contributions by a broad spectrum of international scholars by young researchers working on fragmentary drama as well as by well known experts in this field The volume explores another kind of fragmentation that seems already to have been embraced by the ancient dramatists quotations extracted from their context and immersed in a new whole in which they work both as cohesive unities and detachable entities Sections of poetic works circulated in antiquity not only as parts of a whole but also independently i e as component fractions rather like quotations on facebook today Fragmentation can thus be seen operating on the level of dissociation but also on the level of cohesion The volume investigates interpretive possibilities quotation

contexts production and reception stages of fragmentary texts looking into the ways dramatic fragments can either increase the depth of fragmentation or strengthen the intensity of cohesion *Fragments in Context - Frammenti e dintorni* Virginia Mastellari, 2021-02-15 Die Beitr ge des mehrsprachigen Sammelbandes analysieren die Umgebung von Fragmenten der griechischen Literatur Damit sind soziokulturelle und sprachliche Kontexte dramaturgische Mechanismen sowie Evolutionsprozesse einer literarischen Gattung bis hin zur Rezeption antiker Fragmente gemeint Dabei gehen sie den Fragen nach warum mit welcher Absicht in welcher Form und in welchem Umfang ein Tr gertext ein Fragment zitiert Der Band er ffnet damit nicht nur der Fragmentforschung unter philologischen und methodologischen Gesichtspunkten neue Wege sondern erweitert auch das Verst ndnis der berlieferungsprozesse antiker Literatur **Euripides and the Myth of Perseus** P.J. Finglass, 2024-08-05 A recently published second century papyrus P Oxy 5283 contains prose summaries hypotheses of six plays by the Greek dramatist Euripides including two lost plays depicting the hero Perseus Dictys and Dana This book demonstrates the significance of this discovery for our understanding of Greek tragedy After setting out the mythological and dramatic context and offering a new text and translation based on autopsy the book analyses the light which the papyrus sheds on these plays whose narratives centred on female resistance to abusive male tyrants speak as powerfully to us today as they did to their original audiences It then investigates Euripides tragic trilogy of 431 BC which ended with Dictys and began with Medea whose dramatic power now stands in sharper focus given our improved understanding of the production in which it originally appeared Finally it ponders the purpose which these hypotheses served and why readers in the second century AD should have wanted a summary of plays written more than half a millennium before All Greek and Latin is translated making the book accessible not just to classicists but to theatre historians and to anyone interested in Greek literature drama and mythology **Gaze, Vision, and Visuality in Ancient Greek Literature** Alexandros Kampakoglou, Anna Novokhatko, 2018-03-05 Visual culture performance and spectacle lay at the heart of all aspects of ancient Greek daily routine such as court and assembly cult and ritual and art and culture Seeing was considered the most secure means of obtaining knowledge with many citing the etymological connection between seeing and knowing in ancient Greek as evidence for this Seeing was also however often associated with mere appearances false perception and deception Gazing and visuality in the ancient Greek world have had a central place in the scholarship for some time now enjoying an abundance of pertinent discussions and bibliography If this book differs from the previous publications it is in its emphasis on diverse genres the concepts gaze vision and visuality are considered across different Greek genres and media The recipients of ancient Greek literature both oral and written were encouraged to perceive the narrated scenes as spectacles and to follow the gaze of the characters in the narrative By setting a broad time span the evolution of visual culture in Greece is tracked while also addressing broader topics such as theories of vision the prominence of visuality in specific time periods and the position of visuality in a hierarchisation of the senses Portraits of Medea in Portugal during

the 20th and 21st Centuries Andrés Pociña Pérez, Aurora López, Carlos Ferreira Morais, Maria de Fátima Silva, Patrick Finglass, 2018-11-01 The theme of Medea in Portuguese literature has mainly given rise to the writing of new plays on the subject The central episode in the Portuguese rewritings in the last two centuries is the one that takes place in Corinth i e the break between Medea and Jason on the one hand and Medea s killing of their children in retaliation on the other Besides the complex play of feelings that provides this episode with very real human emotions gender was a key issue in determining the interest that this story elicited in a society in search of social renovation after profound political transformations during the transition between dictatorship and democracy which happened in 1974 that generated instability and established a requirement to find alternative rules of social intercourse in the path towards a new Portugal **The Classical Outlook**, 1968 **Nuevas interpretaciones del mundo antiguo** E. Redondo Moyano, María José García Soler, José L. Melena, 2016
