Rezaul Islam, 2022-07-08 This handbook provides an authoritative account of social work field education in the global south It presents an overview of various aspects of theory and practice modules in the social work curriculum and advances in research in social work field education in the developing world through in depth analyses and global case studies Key features Discusses critical issues and new directions in the theory and practice of social work field education challenges in field work education decolonising field work training developing competent social work graduates aligning fieldwork with cultural practices in indigenous communities the idea of clinical social work and a comparative analysis of social work field supervision Integrates theory and practice of social work field education for students and teachers from diverse geographical and cultural contexts across the global south including countries from South Asia and Asia Africa and Latin America and the Caribbean covering India Bangladesh Pakistan Nepal Sri Lanka China Georgia Philippine Turkey Papua New Guinea Eswatini Republic of Trinidad Tobago Kenya Nigeria South Africa Botswana Chile and Barbados Brings together international comparative perspectives on field work education in social work from leading experts social work educators and social work professionals This handbook will be an essential resource for scholars and researchers of social work development studies social anthropology sociology education South Asian studies and Global South studies It

will also be useful to educators and practitioners of social work in global institutions of higher studies as well as civil society organisations

The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain s declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it

Handbook of Research on Smart Technology Applications in the Tourism Industry Çeltek, Evrim, 2020-01-17 In today s modernized society certain technologies have become more applicable within many professional fields and are much easier to implement This includes the tourism industry where smart technology has provided a range of new marketing possibilities including more effective sales tactics and delivering a more personalized customer experience As the scope of business analytics continues to expand professionals need research on the various applications of smart technology within the field of tourism The Handbook of Research on Smart Technology Applications in the Tourism Industry is an essential reference source that discusses the use of intelligent systems in tourism as well as their influence on consumer relationships Featuring research on topics such as digital advertising wearable technology and consumer behavior this book is ideally designed for travel agents tour developers restaurateurs hotel managers tour directors airlines marketers researchers managers hospitality professionals policymakers business strategists researchers academicians and students seeking coverage on the use of smart technologies in tourism

The Routledge Companion to the Geography of International Business Gary Cook, Jennifer Johns, Frank McDonald, Jonathan Beaverstock, Naresh Pandit, 2018-05-08 The fields of Economic Geography and International Business share an interest in the same phenomena whilst each provides both a differing perspective and different research methods in attempting to understand those phenomena The Routledge Companion to the Geography of International Business explores the nature and scope of inter disciplinary work between Economic Geography and International Business in explaining the

central issues in the international economy Contributions written by leading specialists in each field including some chapters written by inter disciplinary teams focus on the nature of multinational firms and their strategies where they choose to locate their activities how they create and manage international networks and the key relationships between multinationals and the places where they place their operations Topics covered include the internationalisation of service industries the influence of location on the competitiveness of firms and the economic dynamism of regions and where economic activity takes place and how knowledge goods and services flow between locations The book examines the areas for fruitful inter disciplinary work between International Business and Economic Geography and sets out a road map for future joint research and is an essential resource for students and practitioners of International Business and Economic Development Handbook of Research on Climate Change and the Sustainable Financial Sector Olarewaju, Odunayo Magret,Ganiyu, Idris Olayiwola,2021-06-25

Climate change is a major problem generating both risks and opportunities that will have a direct impact on the economy and the financial sector In recent years climate change has threatened both the survival of the financial system and economic development The growing occurrence of extreme climate events combined with the imprudent nature of economic growth can cause unsustainable levels of harm to the financial sectors On the other hand it presents a range of new business challenges In contrast to the most evident physical risks companies are vulnerable to transformational risks that arise from the reaction of society to climate change such as technological change regulation and markets that can boost the cost of doing business threats to the profitability of existing goods or effects on the value of the asset Climate change also offers new business opportunities and it has made research in the context of a sustainable financial sector indispensable The Handbook of Research on Climate Change and the Sustainable Financial Sector focuses on the impacts of climate change on various sectors of the world economy This book covers how businesses can improve their sustainability the impact of climate change on the financial sector and specifically the impacts on financial services supply chains and the socio economic status of the world Beyond focusing on the impacts to the financial industry itself this book assesses how climate change in the financial sector affects the well being of society in areas such as unemployment economic recessions decreases in consumer purchases and more This book is essential for stockbrokers business managers directors fund managers financial analysts consultants and actuaries institutional investors policymakers practitioners researchers academicians and students interested in a comprehensive view of the impact of climate change on the financial sector **Critical**

Perspectives on Work-Integrated Learning in Higher Education Institutions Nirmala Dorasamy,Renitha Rampersad,2018-11-30 Governments around the world are committed to enhancing students graduateness Work integrated learning WIL is one of the many programmes which Higher Education Institutions HEIs can develop to promote this facet of student life The incorporation of work integrated learning in curriculum design and development can produce reciprocal benefits for students workplaces professions and communities Any curriculum design and development endeavour relating to

WIL requires appropriate resources to support curriculum development This book serves to explore WIL programmes and experiences for the student WIL coordinator and supervisor It further integrates practical relevant and reflective industry experience within the higher education curriculum to enhance student development WIL has no uniform or specific framework or approaches since it is an emerging field and is generally influenced by contextual factors In view of the diversity in theory and practice and different purposes whether pragmatic or practical driving the adoption of one approach over another this book highlights the diverse approaches that encapsulate WIL in South Africa *A Handbook of Media and Communication Research* Klaus Bruhn Jensen, 2020-12-30 Thoroughly revised and updated this third edition integrates perspectives from the social sciences and the humanities focusing on methodology as a strategic level of analysis that joins practical applications with theoretical issues The Handbook comprises three main elements historical accounts of the development of key concepts and research traditions systematic reviews of media organizations discourses and users as well as of the wider social and cultural contexts of communication and practical guidelines with sample studies taking readers through the different stages of a research process and reflecting on the social uses and consequences of research Updates to this edition include An overview of the interrelations between networked mass and interpersonal communication A new chapter on digital methods Three chapters illustrating different varieties of media and communication research including industry academic collaboration and participatory action research Presentation and discussion of public issues such as surveillance and the reconfiguration of local and global media institutions This book is an invaluable reference work for students and researchers in the fields of media communication and cultural studies *Handbook of Regional Growth and Development Theories* Roberta Capello, Peter Nijkamp, 2019 Regional economics an established discipline for several decades has undergone a period of rapid change in the last ten years resulting in the emergence of several new perspectives At the same time the methodology of regional economics has also experienced some surprising developments This fully revised and updated Handbook brings together contributions looking at new pathways in regional economics written by many well known international scholars The aim is to present the most cutting edge theories explaining regional growth and local development The authors highlight the recent advances in theories the normative potentialities of these theories and the cross fertilization of ideas between regional and mainstream economists It will be an essential source of reference and information for both scholars and students in the field **The International Handbook of Positive Psychology** Edward C. Chang, Christina Downey, Hongfei Yang, Ingo Zettler, Mine Muyan-Yılık, 2022-02-02 This handbook discusses the latest findings from different fields of positive psychology from a global perspective by providing a coherent framework to get a better understanding of the development and practice of positive psychology It starts with the parameters of positive psychology and a summary of the historical rise of positive psychology both first wave and second wave of positive psychology in the US and its slow but steady growth on a global scale This handbook highlights the major contributions of positive psychologists across 17 major

regions of the world on theory research assessment and Practice It discusses how positive psychology can progress human living in different countries and it shows the reasons why positive psychology has become an important source in research and education around the world

Routledge Handbook of Food as a Commons Jose Luis Vivero-Pol, Tomaso Ferrando, Olivier De Schutter, Ugo Mattei, 2018-12-17 From the scientific and industrial revolution to the present day food an essential element of life has been progressively transformed into a private transnational mono dimensional commodity of mass consumption for a global market But over the last decade there has been an increased recognition that this can be challenged and reconceptualized if food is regarded and enacted as a commons This Handbook provides the first comprehensive review and synthesis of knowledge and new thinking on how food and food systems can be thought interpreted and practiced around the old new paradigms of commons and commoning The overall aim is to investigate the multiple constraints that occur within and sustain the dominant food and nutrition regime and to explore how it can change when different elements of the current food systems are explored and re imagined from a commons perspective Chapters do not define the notion of commons but engage with different schools of thought the economic approach based on rivalry and excludability the political approach recognizing the plurality of social constructions and incorporating epistemologies from the South the legal approach that describes three types of proprietary regimes private public and collective and different layers of entitlement bundles of rights and the radical activist approach that considers the commons as the most subversive coherent and history rooted alternative to the dominant neoliberal narrative These schools have different and rather diverging epistemologies vocabularies ideological stances and policy proposals to deal with the construction of food systems their governance the distributive implications and the socio ecological impact on Nature and Society The book sparks the debate on food as a commons between and within disciplines with particular attention to spaces of resistance food sovereignty de growth open knowledge transition town occupations bottom up social innovations and organizational scales local food national policies South South collaborations international governance and multi national agreements Overall it shows the consequences of a shift to the alternative paradigm of food as a commons in terms of food the planet and living beings

The Cambridge Handbook of Childhood Multilingualism Anat Stavans, Ulrike Jessner, 2022-08-25 Childhood multilingualism has become a norm rather than an exception This is the first handbook to survey state of the art research on the uniqueness of early multilingual development in children growing up with more than two languages in contact It provides in depth accounts of the complexity and dynamics of early multilingualism by internationally renowned scholars who have researched typologically different languages in different continents Chapters are divided into six thematic areas following the trajectory environment and conditions underlying the incipient and early stages of multilingual children s language development The many facets of childhood multilingualism are approached from a range of perspectives showcasing not only the challenges of multilingual education and child rearing but also the richness in linguistic and cognitive development of

these children from infancy to early schooling It is essential reading for anyone interested in deepening their understanding of the multiple aspects of multilingualism seen through the unique prism of children

Diverse educational contexts and research on metacognition and motivation to enhance self-directed learning Bernadette Geduld, Byron J. Bunt, Divan Jagals, 2025-02-17 This scholarly book explores the latest education research on metacognition and self directed learning providing practical insights for educators and students As the thirteenth volume in the NWU Self Directed Learning Series it focuses on developing metacognitive skills to enhance self regulation motivation and independent thinking key competencies for success in the 21st century Metacognition plays a vital role in learning helping students plan evaluate and self assess their progress Research shows that students with strong metacognitive strategies achieve better learning outcomes apply knowledge effectively and persist through academic challenges This book offers evidence based teaching strategies to support the development of self regulated learning and motivation in diverse educational settings It examines teaching behaviour and instructional methods that foster metacognitive growth in both basic and higher education With a particular focus on the South African education landscape it extends research in cognitive developmental and applied psychology Researchers and educators will find practical approaches for integrating metacognition into various disciplines making this book a valuable resource for both undergraduate and graduate education programmes
