VIP - CLOSE PROTECTION

CHAPTER 2:

TERMINOLOGY AND STRUCTURE OF A CLOSE PROTECTION TEAM

Learning outcomes for Chapter 2.

After completing this chapter, you should be able to: identify the typical positions within the close protection team; explain the function of each position in the close protection team; and understand and explain the basic terminology that CPOs use.

The close protection team

Before we describe the various members of the close protection team, we'll define CPOs and the close protection team in more detail.

The close protection team is assigned to carry out an operation with the aim of protecting the principal. The close protection team comprises various CPOs, who are all responsible for the protection of the principal. Different members of the team will accompany the principal to various venues, secure the venues, and supply weapons and equipment. CPOs are members of the close protection team, who are all trained in close protection skills. CPOs may be tasked with a variety of duties. For example, a CPO may be a driver, part of the advance team, or part of the personal escort section (PES) team, or back-up team. The bodyguard is a member of the PES team.

While CPO positions may vary according to the number of CPOs available for an operation, the close protection team will usually include the following positions:

- the personal escort section (PES) team;
- the bodyguard (BG), the team leader (TL), the points man (P), left flank (LF), right flank (RF) and tail or rear;
- the advance team (we'll cover some of the knowledge you'll need in this team);
- the drivers (we'll cover some of the knowledge you'll need as a driver);
- the mobile support team or back-up team (we'll cover some of the knowledge you'll need in this team);
- and the operational commander (OC).

Apart from the principal, the close protection team may need to liaise with support staff, the police, managers of various venues, dignitaries and so on.

The close protection team is similar to a rugby or football team in that every member can make a name for himself or herself in his or her given position in the team while making an equally valuable contribution to the team's goals.

We'll look at each of these positions in the CPO team more detail. Firstly, however, we'll outline the position of close protection detail commander.

Close protection detail commander

The close protection detail commander is responsible for:

guides close protection training;
co-ordinating protection operations;
managing personnel provision;
and liaising with senior management and principals.

Vip Close Protection Training Manual:

The Unconventional Close Protection Training Manual Robert Scali, 2018-01-27 I wrote this book to teach people with no background in the protection industry how to not only be their own bodyguard but how to learn new skills so that they may eventually protect other people professionally If you want to learn the business and become a Private Security or Close Protection Operator you must learn a series of skill sets How you gain any skill set can vary from person to person Some people acquire the skills in the military police or even after years of hands on martial arts training You do not have to become a Green Beret Navy SEAL or CIA Contractor to acquire a series of proficient skill sets on survival combatives or shooting All you have to do to acquire some new skills in personal protection is to have the desire to learn and then apply what you have learned safely and with a high level of proficiency I will pass on small pearls of wisdom throughout this book The gems that I pass on to you have been passed on to me in many different ways throughout my life Each jewel will be a new skill or a direction to learn The more that you learn the more you will understand Any person with the passion for learning will pick up these new skills and instantly apply them The more that you read about close protection the more you will learn from this book The more that you physically do the more ingrained your skills will become into daily operational procedures Even if you learn just one new thing from this book that saves your life or someone else's then it was worth learning that skill Stay flexible in your thinking and keep an open mind as you read this book The more you learn about yourself the more you will want to know and apply your new skills towards your everyday life Eventually you will be able to tie all of the pearls from this book together and become operationally proficient and stay safe in many different scenarios Protection Officer Training

absolutely clear especially when considering the real risk of either being shot dead shooting somebody and being charged with their murder or not shooting somebody and it resulting in the death of a colleague or a member of the public In the late 1960s and early 1970s the police s use of firearms was far removed from what it is today Nominated officers were allowed to draw firearms on an as and when basis and would undertake firing practice on only a few occasions throughout the course of the year with little or no thought or consideration given to tactical approaches to a particular scenario However the change in attitudes by senior officers to firearms can be traced back to the August 1966 murders of three Metropolitan police officers by two armed criminals close to Wormwood Scrubs prison in west London This book looks at the history of police firearms units which started to be formed in the immediate aftermath of the 1966 killings and how they have subsequently evolved improving in the selection of suitable officers along with the weaponry and equipment used and the training provided to the officers who volunteer for this extremely dangerous and stressful role
