#### **OECD Environmental Performance Reviews: Korea 2017**

*OECD Economic Surveys: Korea 2016* OECD,2016-05-16 This 2016 OECD Economic Survey of the Korea examines recent economic developments policies and prospects The special chapters cover Raising productivity and Labour market reform

*Republic of Korea* International Monetary Fund. Asia and Pacific Dept,2018-02-13 This Selected Issues chapter outlines a strategy to facilitate this and navigate the more challenging monetary environment involving enhanced communication of policy interest rate intentions and inflation forecast targeting The reduction in the inflation target by a percentage point to 2 percent in January 2016 weakened the nominal anchor Monetary policy can play a role rebuilding the credibility of the anchor more rapidly through the adoption of inflation forecast targeting This strengthening of the monetary policy framework involves enhancing communications An effective credible monetary policy cannot address all macroeconomic challenges facing Korea Rather it can foster robust growth with low inflation providing a stable and predictable environment that allows other policies to work more effectively These other policies play a complementary role Fiscal policy can reinforce the effectiveness of monetary policy as illustrated by model scenarios Structural policies can also support monetary policy by for example boosting potential growth

**Target Markets** Andrea Berger,2017-07-14 A UN arms embargo has been in place against North Korea for nearly a decade as part of a broader sanctions regime designed to deny it the goods and funds needed to fuel its nuclear weapons and ballistic missile programmes Yet despite these sanctions a host of state and non state actors continue to buy arms material and services from Pyongyang and inject funds into the same coffers that drive North Korea s nuclear and missile development While some of North Korea s military customers in the sanctions era since 2006 are well known such as Iran Syria and Burma Pyongyang s wider client base receives little international attention North Korea has continued to enjoy access to other defence markets across Africa and the Middle East The drivers of these clients decisions to buy weapons and related goods from North Korea are rarely discussed This gap in analysis is essential to fill If tailored and effective approaches are to be developed to convince North Korea s customers to buy elsewhere they must be based on a sound understanding of the considerations that motivated the client to turn to Pyongyang in the first place

comprehensively analyses the available information on these procurement decisions. It concludes contrary to conventional wisdom that the reasons that customers buy weapons and related goods and services from North Korea vary often greatly. This study also concludes that one of the greatest achievements of the UN sanctions regime to date has been to deny North Korea access to modern conventional weapons technology that it can learn to manufacture at home and sell on to its clients around the world. Without more contemporary wares to tempt foreign buyers, North Korea will likely continue to see its client list for weapons and related goods and services shrinking.

This book brings together scholars from disciplines including sport history, sociology, journalism, economics, sport development and sport management to explore the significance of sport in contemporary Korea. Presenting a variety of international perspectives, it plots the dynamic evolution of sport in Korea and envisions the possibilities for its future. Each chapter focuses on a key topic of current relevance, such as sport in the context of shifting relations between North and South Korea or the role of sport in the expression of Korean nationalism. Arguing that individuals, institutions, businesses and governments have actively leveraged or exploited sport to influence developments in various social, economic, cultural and political arenas, this book sheds new light on the importance of sport as a catalyst for change in Korea.
