Espeland, 2016-05-09 Students and the public routinely consult various published college rankings to assess the quality of colleges and universities and easily compare different schools. However, many institutions have responded to the rankings in ways that benefit neither the schools nor their students. In *Engines of Anxiety*, sociologists Wendy Espeland and Michael Sauder delve deep into the mechanisms of law school rankings, which have become a top priority within legal education. Based on a wealth of observational data and over 200 in-depth interviews with law students, university deans, and other administrators, they show how the scramble for high rankings has affected the missions and practices of many law schools. *Engines of Anxiety* tracks how rankings such as those published annually by the U.S. News World Report permeate every aspect of legal education, beginning with the admissions process. The authors find that prospective law students not only rely heavily on such rankings to evaluate school quality but also internalize rankings as expressions of their own abilities and flaws. For example, they often view rejections from first-tier schools as a sign of personal failure. The rankings also affect the decisions of admissions officers who try to balance admitting diverse classes with preserving the school's ranking, which is dependent on factors such as the median LSAT score of the entering class. Espeland and Sauder find that law schools face pressure to admit applicants with high test scores over lower-scoring candidates who possess other favorable credentials. *Engines of Anxiety* also reveals how rankings have influenced law schools' career service departments. Because graduates' job placements play a major role in the rankings, many institutions have shifted their career services resources toward tracking placements and away from counseling and network building. In turn, law firms regularly use school rankings to recruit and screen job candidates, perpetuating a cycle in which highly ranked schools enjoy increasing prestige. As a result, the rankings create and reinforce a rigid hierarchy that penalizes lower-tier schools that do not conform to the restrictive standards used in the rankings. The authors show that as law schools compete to improve their rankings, their programs become more homogenized and less accessible to non-traditional students. The ranking system is considered a valuable resource for learning about more than 200 law schools. Yet *Engines of Anxiety* shows that the drive to increase a school's rankings has negative consequences for students, educators, and administrators and has implications for all educational programs that are quantified in similar ways.

Inclusive Socratic Teaching Jamie R. Abrams, 2024-06-04 For more than fifty years, scholars have documented and critiqued the marginalizing effects of the Socratic teaching techniques that dominate law school classrooms. In spite of this, law school budgets, staffing models, and course requirements still center Socratic classrooms as the curricular core of legal education. In this clear-eyed book, law professor Jamie R. Abrams catalogs both the harms of the Socratic method and the deteriorating well-being of modern law students and lawyers, concluding that there is nothing to lose and so much to gain by reimagining Socratic teaching. Recognizing that these traditional classrooms are still necessary sites to fortify and catalyze other innovations and values in legal education, *Inclusive Socratic Teaching* provides concrete tips and strategies to dismantle the autocratic power and inequality that so often characterize these classrooms. A galvanizing call to

action this hands on guide equips educators and administrators with an inclusive teaching model that reframes the Socratic classroom around teaching techniques that are student centered skills centered client centered and community centered

Black Men in Law School Darrell Jackson, 2018-03-19 Grounded in Critical Race Theory CRT *Black Men in Law School* refutes the claim that when African American law students are mismatched with more selective law schools the result is lower levels of achievement and success Presenting personal narratives and counter stories Jackson demonstrates the inadequacy of the mismatch theory and deconstructs the ways race is constructed within American public law schools Calling for a replacement to mismatch theory Jackson offers an alternative theory that considers marginalized student perspectives and crystallizes the nuances and impact that historically exclusionary institutions and systems have on African American law school students To further the debate on affirmative action this book shows that experiences and voices of African American law school students are a crucial ingredient in the debate on race and how it functions in law schools

Choosing State Supreme Court Justices Greg Goelzhauser,2016-06-15 Since 1940 more than half of all states have switched at least in part from popular election or elite appointment to experiment with merit selection in choosing some or all of their state supreme court justices Under merit selection a commission often comprising some combination of judges attorneys and the general public is tasked with considering applications from candidates vying to fill a judicial vacancy Ostensibly the commission forwards the best candidates to the governor who ultimately appoints them Presently numerous states are debating whether to adopt or abolish merit selection In his short sharp book *Choosing State Supreme Court Justices* Greg Goelzhauser utilizes new data on more than 1 500 state supreme court justices seated from 1960 through 2014 to answer the question Does merit selection produce better types of judges He traces the rise of merit selection and explores whether certain judicial selection institutions favor candidates who have better qualifications are more diverse and have different types of professional experience Goelzhauser s results ultimately contribute to the broader debate concerning comparative institutional performance with respect to state judicial selection **How to Get Into the Top Law Schools**
