Violin Strumming Patterns:

Creating Performances for Teaching and Learning Chris McRae, Aubrey Huber, 2017-07-13 This book uses the metaphors of practice spaces and practice sessions to demonstrate the connection between creative and performance practices and critical pedagogy. It offers a conceptual framework for using performance and creative practices as starting points for developing philosophies and practices of teaching that are grounded in aesthetic creative and critical approaches to education. The practice sessions for pedagogy presented include a range of creative endeavours such as performance workshops, musical routines, crafting practices and writing. By focusing on the critical function of creative practices, the book emphasizes the ways creativity can reveal the relationship between everyday acts and social and cultural ideologies and structures. Creative practices also present the opportunity for imagining new, more socially just and inclusive configurations of these relationships. This book is designed for teachers and students interested in critical pedagogy, performance and creative educational practices.

Structural Multistabilities and Listening Experiences in Minimalist Music Kristen Wallentinsen, 2025-11-24. Kristen Wallentinsen uses an interdisciplinary theory of multistability to investigate different effects minimalist music has on the listener. Drawing on theories of multistability from philosophy and psychology, the book builds an analytical framework and typology that demonstrates minimalist music's reliance on multistable structure for its interpretive flexibility. Through a close analysis of works by Steve Reich, Philip Glass, Meredith Monk, Ann Southam, Charlemagne Palestine, and Julius Eastman, the book shows that multistability exists as a through-line across minimalist compositional approaches and can be a valuable way to gain deeper insight into the structures and experiences of minimalist music. This book will be of primary interest to scholars of music theory and musicology but will also be of interest to scholars of music cognition, music performance, philosophy, art, and media studies, as well as those interested
