Transatlantic Reflections on the Practice-Based PhD in Fine Art Jessica Schwarzenbach, Paul Hackett, 2015-08-11
Once the US was the only country in the world to offer a doctorate for studio artists however the PhD in fine art disappeared after pressures established the MFA as the terminal degree for visual artists Subsequently the PhD in fine art emerged in the UK and is now offered by approximately 40 universities Today the doctorate is offered in most English speaking nations much of the EU and countries such as China and Brazil Using historical political and social frameworks this book investigates the evolution of the fine art doctorate in the UK what the concept of a PhD means to practicing artists from the US and why this degree disappeared in the US when it is so vigorously embraced in the UK and other countries Data collected through in depth interviews examine the perspectives of professional artists in the US who teach graduate level fine art These interviews disclose conflicting attitudes toward this advanced degree and reveal the possibilities and challenges of developing a potential doctorate in studio art in the US

Art &&&&&&& Outrage John A. Walker, 1998-11-20 When art hits the headlines it is usually because it has caused offence or is perceived by the media to have shock value Over the last fifty years many artists have been censored vilified accused of blasphemy and obscenity threatened with violence prosecuted and even imprisoned Their work has been trashed by the media and physically attacked by the public In *Art Outrage* John A Walker covers the period from the late 1940s to the 1990s to provide the first detailed survey of the most prominent cases of art that has scandalised The work of some of Britain's leading and less well known painters and sculptors of the post war period is considered such as Richard Hamilton Bryan Organ Rachel Whiteread Reg Butler Damien Hirst Jamie Wagg Barry Flanagan and Antony Gormley Included are works made famous by the media such as Carl Andre's Tate Gallery installation of 120 bricks Rick Gibson's foetus earrings Anthony Noel Kelly's cast body parts sculptures and Marcus Harvey's portrait of Myra Hindley Walker describes how each incident emerged considers the arguments for and against and examines how each was concluded While broadly

sympathetic to radical contemporary art Walker has some residual sympathy for the layperson's bafflement and antagonism. This is a scholarly yet accessible study of the interface between art society and mass media which offers an alternative history of post-war British art and attitudes.
