Religion in Cormac McCarthy's Fiction Manuel Broncano, 2013-11-20 This book addresses the religious scope of Cormac McCarthy s fiction one of the most controversial issues in studies of his work Current criticism is divided between those who

find a theological dimension in his works and those who reject such an approach on the grounds that the nihilist discourse characteristic of his narrative is incompatible with any religious message McCarthy's tendencies toward religious themes have become increasingly more acute revealing that McCarthy has adopted the biblical language and rhetoric to compose an apocryphal narrative of the American Southwest while exploring the human innate tendency to evil in the line of Herman Melville and William Faulkner both literary progenitors of the writer Broncano argues that this apocryphal narrative is written against the background of the Bible a peculiar Pentateuch in which *Blood Meridian* functions as the Book of Genesis the *Border Trilogy* functions as the Gospels and *No Country for Old Men* as the Book of Revelation while *The Road* is the post apocalyptic sequel This book analyzes the novels included in what Broncano defines as the South Western cycle from *Blood Meridian* to *The Road* in search of the religious foundations that support the narrative architecture of the texts Goethe's Lyric Poems in English Translation Prior to 1860 Lucretia Van Tuyl Simmons, 1919 **Asia**, 1923 **The Magazine of American History with Notes and Queries** John Austin Stevens, Benjamin Franklin DeCosta, Henry Phelps Johnston, Martha Joanna Lamb, Nathan Gillett Pond, 1888 **North Dakota History**, 1989 **Century Illustrated Monthly Magazine** ..., 1890 **The Critic**, 1897 **Places of Mind** Timothy Brennan, 2025-09-23 A New York Times Book Review Editors Choice The first comprehensive biography of the most influential controversial and celebrated Palestinian intellectual of the twentieth century As someone who studied under Edward Said and remained a friend until his death in 2003 Timothy Brennan had unprecedented access to his thesis adviser's ideas and legacy In this authoritative work Said the pioneer of postcolonial studies a tireless champion for his native Palestine and an erudite literary critic emerges as a self-doubting tender eloquent advocate of literature's dramatic effects on politics and civic life Charting the intertwined routes of Said's intellectual development *Places of Mind* reveals him as a study in opposites a cajoler and strategist a New York intellectual with a foot in Beirut an orchestra impresario in Weimar and Ramallah a raconteur on national television a Palestinian negotiator at the State Department and an actor in films in which he played himself Brennan traces the Arab influences on Said's thinking along with his tutelage under Lebanese statesmen off-beat modernist auteurs and New York literati as Said grew into a scholar whose influential writings changed the face of university life forever With both intimidating brilliance and charm Said melded these resources into a groundbreaking and influential countertradition of radical humanism set against the backdrop of techno-scientific dominance and religious war With unparalleled clarity Said gave the humanities a new authority in the age of Reaganism one that continues today Drawing on the testimonies of family friends students and antagonists alike and aided by FBI files unpublished writings and Said's drafts of novels and personal letters *Places of Mind* synthesizes Said's intellectual breadth and influence into an unprecedented intimate and compelling portrait of one of the great minds of the twentieth century *Leaving Reality* James Wollrab, Rob Collette, 2014-06-06 This is the unusual story of a young lad who grows up in Alaska with his life dominated by dreams of playing hockey in the National Hockey League His
