Africa Yesterday, Today and Tomorrow Nathan Andrews, 2013-02-14 From a multi dimensional and interdisciplinary standpoint this book challenges the teleological and unidirectional notions of development embodied in the idea of modernisation or progress and offers a critique of the tendency to consider Africa as a basket case which often gives the Western self an undeserving privilege and superiority over the African other Mostly authored by emerging African scholars this 16 chapter volume addresses the historical application of development projects in Africa and their modern impact in economic political cultural social and infrastructural contexts among others The book therefore unearths development dynamics in specific African countries examines the continent s external relations rethinks predominant ideas on development and engages in critical examination of concepts and practices that have maintained hegemonic positions in the discussions on Africa s development Its uniqueness lies in the ability to bring these several voices and themes together into a concise conception of both the challenges and possibilities of Africa s sustainable development The book targets both the academic and policy worlds in Africa and around the world as well as ordinary members of the public who seek to broaden their theoretical and empirical understanding on the changing dynamics on the African continent **Empire of Objects**

Revisited Ann Carey, 2013-01-01 Fifty years ago nearly 200 000 religious sisters worked in Catholic schools hospitals and other institutions throughout the United States American Catholics honored these women of faith who founded and built these flourishing works of mercy Then came the ideological shifts and moral upheavals of the 1960s and ever since most women s orders in the United States have been in a state of crisis Now the sisters are aging with fewer and fewer younger

women to take their place Perhaps related to this demographic shift is the continuing doctrinal confusion that has come under the scrutiny of the Vatican Using the archival records of the Leadership Conference of Women Religious and other prominent groups of sisters journalist and author Ann Carey shows how feminist activists unraveled American women's religious communities from their leadership positions in national organizations and large congregations She also explains the recent and necessary interventions by the Vatican After examining the many forces that have contributed to the crisis Carey reports on a promising sign of renewal in American religious life the growing number of young women attracted to older communities that have retained their identity and newly formed yet traditional congregations

Future of Hope and Present Reality Andrew Chester, 2012 This book is the first of a two volume work with the overall title Future Hope and Present Reality These volumes had their origin in the Speaker s Lectures that Andrew Chester gave in Oxford their main focus is central themes in biblical eschatology and especially the apparent contradictions between what is hoped for in the future and what is experienced in the present the stark discrepancy that is between the world as it is and the world as it should be In this first volume as the subtitle Eschatology and Transformation in the Hebrew Bible indicates the author is concerned with the Hebrew Bible or Old Testament the second will be on the New Testament He deals successively with central eschatological themes and the deep tensions they involve divine threats of an absolute end to human life and to

the world itself and divine promises of blessing and transformation along with the theological questions inevitably raised by these both in themselves and in relation to each other the whole phenomenon of prophecy and the problems it involves not least whether it can be taken seriously in face of the contradictions and failures it manifests He discusses the sheer discrepancy between ideal and reality in traditions relating to kingship along with the tensions inherent in the emergence of messianic hope death as representing the end of any relationship with God along with hope that goes beyond death in relation both to the individual and also the nation and finally visions of a transformed and paradisaal world and whether these can bear any relation to reality It is argued that the Hebrew Bible can be seen to offer genuine grounds for hope but that these can have any cogency only if the problems involved are really engaged with
