Unbelievable: A Memoir by Henry Goldring (2018 Edition) Henry Goldring,2018-12-10 UNBELIEVABLE was first published in 2010 It was the second in what is now a trilogy of memoirs first being a one person autobiographical musical titled AND NOW FOR MY NEXT LIFE which was presented in Los Angeles at The Zephyr Theatre in 1992 The second is this book And now a third offering a new 5 character musical titled UNBELIEVABLE but true which is at this printing in the beginning stages of production The most difficult part of writing my life story in any form is acknowledging there is no logical ending because my journey is ongoing But what has ended is my search for resolution or closure Closing a book and slamming a door doesn t make the hurt go away It forces you to write a new chapter or enter a new room It is called evolving One specific benchmark of my evolution was changing my name from Steven Henry Goldring to Henry Goldring I never liked Steven with its sibilant s Sissy Steve connotation And because my grandfather and namesake Henry Perilstein was truly the

one person in my world who showed me unconditional love deleting the source of childhood bullying and honoring my grandfather was a tangible path forward And finally accepting the deep seated truth of who I am has set me free As you read this 2nd Edition of the 2nd Installment please remember JUST BECAUSE I M DIFFERENT FROM YOU DOESN T MEAN I M NOT NORMAL TOO I MUST REALIZE THERE S NO TRUTH IN DISGUISE I MUST BE TRUE TO MY HEART MY FRAGILE BROKEN PERFECT HEART

Piano Lesson Billy Georgette, 2014-03-25 Being sent for piano lessons was probably the single worst thing that could have happened in my young life But thanks to an exceptional lady and piano teacher named Florence Powers I wound up unexpectedly becoming a professional piano player Here are some curious things about the piano that I picked up along the way Playing the piano has got to be one of life s greatest treasures In my estimation there are few other activities that can even begin to compare with the ability to play this amazing instrument As you can probably guess I have the highest regard for those individuals who have mastered the art of playing the piano Some performers have taken the art to a very high level often out of the reach of most players But my aim here is to present a simple accessible approach on learning how to listen to or how to approach playing the piano for one s own pleasure first and foremost This self centered idea doesn t necessarily imply being selfish but it probably does require a slight adjustment to one s priorities However if you can get around this inconvenience the possibilities are sitting right there in front of you and all you have to do is reach out and take My aim here is to demystify the piano for both listeners or those who wish to learn how to get started in learning how play this amazing instrument In any event I feel that pleasure can be derived by having a wider understanding as just what the piano actually is And while a book such as this one may be helpful to those who wish to learn to play the piano there is no substitute for a live teacher However it s extremely important to find a teacher that can fulfill one s personal musical taste and ambition There is much involved if a student wishes to become a proficient music reader thus having a good teacher is essential to success in this area Take your time in finding the right one and good luck However before looking at the piano it s also important to establish what kind of music one is interested in whether for listening or performing For purposes of this book I have arbitrarily broken it down into four major forms Classical Standards Popular and Jazz Classical leads the list as the music that has been around longer much longer than the other two forms of music It represents the foundation of all of today s music Much of it is seriously challenging to play and requires years of dedicated practice At the concert level Olympic style discipline prevails as the techniques of performance far surpasses the scope of this book Be that as it may classical music has an abundance of priceless melodies that can be played in a simplified manner while still retaining their pure magic for listeners and pianists Music operates on principles that were founded in the past 600 years they carry with them an enormous amount of human cultural genius including the invention of equal temperament
