bones and sensory organs There are also 100 questions asked by you and answered by the experts For instance do you know which of the following statements are true As you increase the amount you exercise the rewards you gain from it increase as well If you re not a smoker you have nothing to worry about when it comes to your lungs Your immune system always knows the difference between your own cells and enemy invaders The biggest threat to your arteries is cholesterol Memory loss is a natural inevitable part of aging Stress is the greatest ager and controlling it changes which of your genes is on Did you answer true for any of the above Then take a look inside Complete with exercise tips nutritional guidelines simple lifestyle changes and alternative approaches YOU The Owner s Manual debunks myths and gives you an easy comprehensive and life changing How To plan as well as great tasting and calorie saving recipes that can help you live a healthier younger and better life Be the best expert on your body *Cancer: 100 Ways to Fight* John Roberts,2010-03-29 Cancer 100 Ways to Fight Your own attitude is your brightest guiding star Some of success is doing what you like to do But more of it is doing the things you don t like to do but must It is too easy to make an excuse and not do it and fail John Roberts As this book goes to press early in 2010 I am 75 and into my fifth year with incurable metastatic prostate cancer which had already spread to the bones before cancer was diagnosed and the prostate removed The statistical prognosis for the current treatments of choice is that one half of these patients will die within three years 75% within five This usually happens after the standard treatments and chemotherapy fail and must be discontinued due to harmful side effects or weakening effectiveness resumed cancer growth and the failure of bones or key organs I am still feeling fine no pain living a normal life and I have completed eight months of chemotherapy with a 63% drop in my PSA prostate cancer blood test without major side affects or rising PSA I have fought this cancer and its personal consequences in more than a hundred ways as described here Above all a lifetime of fitness and my current excellent physical and mental condition supplemented by great medical care and everything else I can learn or think of is partially responsible for my success in living beyond the average life span for my particular fatal disease We cannot know which weapon or how much each one contributes to the extension of life so we must use them all The doctors all say that cancer survival is very unpredictable and I figured that many of the positive outcomes must depend on how comprehensively and how hard the individual fights So I immediately started this book and organized my fight I was extremely unfortunate most prostate cancer either is so slow growing or eliminated by removal that survivors live for many years In my case it had already spread or metastasized to the bones prior to the operation and that cancer is inoperable and incurable But some people in that condition die very early while others like me live much longer This is highly unpredictable in individual cases due to variation in patient condition treatment effectiveness and other unknowns More than half of all people newly diagnosed with cancer will be cured or given extended remission They will die of something else Of the other half a large number have treatable cancer and they still have many years to live The remainder probably including me have learned that they have incurable cancer that has grown too strong or spread and taken root in such places that it cannot be

killed or removed and death is likely in the next few months or years Nevertheless normally incurable cancer and conventional predictability sometimes fail and others may prolong life by fighting with strong mental and physical effort As the disease progresses and is treated and science advances sometimes in great leaps we are rarely sure of which group we are in That uncertainty that hope and the dreadful power of cancer call for great strength of character and effort in both patients and those around them This book is about that The animal instinct to survive is in humans alone expanded in our unique cortex to something much greater the intelligent understanding of self awareness and an intense desire to prolong the experience growth and emotion of life The human spirit beyond the mere motivation of existence is largely responsible for all that our species has conquered and achieved It is an essential quality to be trained treasured and put to use and one of the finest ways is to survive continue and improve our exceptional life through our collective and individual intellect In the last century medical science the visibility of living in distant years and the recognition that we are and can be responsible for increasing our own longevity have ad

Lost in Illusion Hilary O'Brien, 2006-08 Imagine Not being able to move from your shoulders down lying in the same bed in the same room 24 hours a day for over 12 years Lost in Illusion is a candid and informative personal account of living with Multiple Sclerosis Special emphasis is placed on many of the popular issues hitting the media now such as medical mistakes neglect and even abuse of the sick and disabled in our country today Are you or a loved one suffering from a disease Have you been told that there is nothing else you can do for this disease Have you exhausted all resources and have been unable to come up with any answers Do you need more information on where to go how to get there and which doctors to see for cutting edge treatment Do you need to know more about the promising hope of stem cell therapy If you answered yes to one or more of these questions then Lost in Illusion is a MUST READ

YOU: The Owner's Manual for Teens Michael F.
