Brainwashed Sally Satel, Scott O. Lilienfeld, 2013-06-04 Demonstrates how the explanatory power of brain scans in particular and neuroscience more generally has been overestimated arguing that the overzealous application of brain science has undermined notions of free will and responsibility Forward Elizabeth Moran, 2023-01-27 Every week thousands of leaders have to guide their teams through a change that they didn't initiate They do what they can but too often they feel unprepared and pressed for time Needing to quickly get the word out they announce the change through an email and hope for the best If there's resistance they increase the frequency and pressure in their messages Not surprisingly this rarely works Dr Elizabeth Moran is a self-described change nerd who guides some of the most successful companies in the world and Forward outlines her practical communication based approach offering proven advice actions and tools to help team leaders navigate their own transformation challenges Grounded in neuroscience and written with humor this is the playbook leaders need complete with beginning to end action steps team and individual conversation guides and a clear approach to measuring success Specific chapters help readers tackle some of the toughest and yet most common transformation challenges happening today like changes that involve job loss and how to build long term resilience **Flip the Script** Bill

Wackermann,2012-05-08 Have you ever felt stuck in your career or in your personal life Do you want to write new and exciting chapters to the story of your life You just have to learn to flip the script Few executives in media today are as well respected for their ability to turn a business or situation around as Bill Wackermann As a leading executive in the publishing industry he is esteemed for his powerful combination of business ingenuity and innovative branding The New York Times has heralded his work stating Mr Wackermann is becoming known for the offbeat campaigns he creates and Fashion Daily called him Times Square s turnaround artist His simple approach to this kind of transformation transcends the publishing industry impacting the worlds of entertainment fashion and art Here in his hip lifestyle guide he shows how to turn negative situations around and how to create new opportunities for business and personal growth Through helpful tips and engaging stories Wackermann empowers readers to embrace self knowledge and be confident of their individual talents With great energy and enthusiasm he presents a clear and clever program for how people can turn their lives around essentially discovering how to flip the script by identifying prospects where none existed and rewriting their personal stories for the better He encourages readers to think of ways to turn every problem or situation around to their benefit Packed with advice such as how to watch for potential openings that might be right in front of you or how to embrace a mantra of personal responsibility his book draws on eye opening stories from his life and the lives of friends and colleagues to show how readers can start to find success today Flip the Script is a highly intuitive and engrossing guide for everyone from entry level to the corner office Wackermann shares his results oriented approach to life and business which has taken him from brash young upstart to seasoned executive making it clear to younger readers in particular that they too can seize the director s chair and come out on top I have read many books on how to succeed in business and often after reading them I have been left wondering if the authors own experiences were relatable to the average person The advice in many of the books tended to be either too scholarly or too complicated to incorporate into real life The lack of a better grounded reality based approach to guiding others to success inspired me to think about my own experiences My success in life and business has come in the absence of any extraordinary opportunity or vision Mine is a journey from a family of six children who struggled monthly to make ends meet to a career in one of publishing s glittering ivory towers From New York to Paris from the world of fashion and beauty to the back lots of Hollywood my success has come from flipping the script and creating opportunities where none existed Flipping the script is my unique approach to turning tables and gaining control from Flip the Script **Leadership** Joseph Crawford,2023-05 The role of a leader has changed drastically since scholars began theorizing about the modern leader Contemporary society has and is continuing to evolve Existing leadership theories need to adapt to be relevant to the expectations of leaders now That is new leadership theories emerge in their place This book presents new ideas in leadership in the 21st century context as well as new models that explain how individuals enact good leadership This book serves as an opportunity to critique or defend current understandings of leadership and propose new evidence based and theory driven

insights into leadership Leadership is understood as more complex than an individual influencing another Within the broad domains of leadership there are leaders followers leadership processes followership processes teams dyads relationships and context Each of these is critical in defining what it is to be a good leader in increasingly complex professional and personal environments This book will encourage authors to make compelling arguments not for how leadership is and has been but rather for how good leadership should be

The Routledge Companion to International Management Education

Denise Tsang, Hamid H. Kazeroony, Guy Ellis, 2013-06-19 Crises and scandals in the world of international management have brought a new spotlight onto how the subject is taught studied and understood There has been a plethora of literature on international management but a lack of focus on how international management education IME can be shaped to respond to existing and future global business challenges The Routledge Companion to International Management Education gathers together contributors from academia industry and university administration involved in IME to introduce the domain of IME describe the emerging state in new geographical areas discuss the major issues and debates revolving around IME explore the linkage of technology and international management and shed light on the future of IME The diverse background of the contributors provides a global perspective that challenges the dominant Anglo American view with up to date specific insights originating from their indigenous view points which has often been neglected and inadequately covered The volume answers important questions such as Do we need a vision in IME What is the current state of IME How has IME grown in emerging market segments What roles does technology play in its recent development The volume provides thought provoking reading for educators administrators policy makers human resources professionals and researchers It will also give future international management students a glimpse of IME from a global inside out perspective

Picture Your Prosperity Ellen Rogin, Lisa Kueng, 2015 Based on a workshop this book offers an interactive plan for women who want to take control of their finances and feel secure about the things that matter most to them Too often financial advice jumps right to the minutiae of investments skipping over the deeper questions of what people really want from their money both now and in the future Ellen Rogin and Lisa Kueng teach their clients and workshop audiences to do the opposite

The Science of Successful Organizational Change Paul Gibbons, 2015-05-15 Every leader understands the burning need for change and every leader knows how risky it is and how often it fails To make organizational change work you need to base it on science not intuition Despite hundreds of books on change failure rates remain sky high Are there deep flaws in the guidance change leaders are given While eschewing the pat answers linear models and change recipes offered elsewhere Paul Gibbons offers the first blueprint for change that fully reflects the newest advances in mindfulness behavioral economics the psychology of risk taking neuroscience mindfulness and complexity theory Change management ostensibly the craft of making change happen is rife with myth pseudoscience and flawed ideas from pop psychology In Gibbons view change management should be euthanized and replaced with change agile businesses with change leaders at every level To achieve that business

education and leadership training in organizations needs to become more accountable for real results not just participant satisfaction the edutainment culture Twenty first century change leaders need to focus less on project results more on creating agile cultures and businesses full of staff who have get to rather than have to attitudes To do that change leaders will have to leave behind the old paradigm of carrots and sticks both of which destroy engagement New analytics offer more data driven approaches to decision making but present a host of people challenges where petabyte information flows meet traditional decision making structures These approaches will have to be complemented with leading with science that is using evidence based management to inform strategy and policy decisions In The Science of Successful Organizational Change you ll learn How the VUCA Volatile Uncertain Complex and Ambiguous world affects the scale and pace of change in today s businesses How understanding of flaws in human decision making can help leaders guide their teams toward wiser strategic decisions when the stakes are largest including when to trust your guy and when to trust a model and when all of us are smarter than one of us How new advances in neuroscience have altered best practices in influencing colleagues negotiating with partners engaging followers hearts minds and behaviors and managing resistance How leading organizations are making use of the science of mindfulness to create agile learners and agile cultures How new ideas from analytics forecasting and risk are humbling those who thought they knew the future and how the human side of analytics and the psychology of risk are paradoxically more important in this technologically enabled world What complexity theory means for decision making in the context of your own business How to create resilient and agile business cultures and anti fragile dynamic business structures To link science with your on the ground reality Gibbons tells warts and all stories from his twenty plus years consulting to top teams and at the largest businesses in the world You ll find case studies from well known companies like IBM and Shell and CEO interviews from Nokia and Barclays Bank

The Discomfort Zone Marcia Reynolds, 2014-10-13 You want people to stretch their limits but your conversations meant to help them often fall flat or backfire creating more resistance than growth Top leadership coach Marcia Reynolds offers a model for using the Discomfort Zone the moment when the mind is most open to learning to prompt people to think through problems see situations more strategically and transcend their limitations Drawing on recent discoveries in the neuroscience of learning Reynolds shows how to ask the kinds of questions that short circuit the brain s defense mechanisms and habitual thought patterns Then instead of being told people see for themselves the insightful and often profound solutions to what is stopping their progress The exercises and case studies will help you use discomfort in your conversations to create lasting changes and an enlivened workforce
