you read **Red Eyes and the Human Horror Story** James D. Patalon, 2015-05-26 The book had originally been titled THE HUMAN HORROR STORY It was a very over descriptive novel that in many other opinions was just too graphic and gory So although that novel had been decided by me to be put on a shelf for future revising one of its chapters caught my attention So I removed that particular chapter and began building a new story surrounding that specific idea and long and behold within four months I created my second novel RED EYES I worked diligently on making sure that the subject matter although a horror story wouldn't upon being published offend anyone So happy and relieved that the finished novel after several personal revisions was finally what I thought completed How very wrong was I The first project somehow decided to find itself added as an extension to the new novel So once again I had to go in and perform surgery Now both stories had to be merged to be one novel So now I began thinking about a new title Finally I came up with merging both titles into one RED EYES AND THE HUMAN HORROR STORY A SPINE TINGLING ADVENTURE INTO UNKNOWN REALMS Two men each facing an unimaginable inexplicable journey each must face horrors and promises in an alternate reality that is both surreal and yet oddly familiar One man suffering from depression deals with his pain by imagining an easier world until an accident pushes him into another realm where he is reunited with a lost love but also must face zombies and an evil demon He must face the truth of the comforting illusions he created but as his dream world becomes more and more compelling and satisfying what will happen when he has to return to real life The second man enters an alternate reality by committing suicide an act that as he has been warned will have serious consequences He is reunited with his soulmate but they can't stay in the reality they currently inhabit An adversary that they thought they had destroyed is back and they must face him again and to their horror they come to learn that they must defeat their demons over and over as they move to new realms the price for taking your own life is to be doomed to move continually from one reality to the next Red Eyes and the Human Horror Story is a thrilling endlessly inventive exploration of the ways in which imagination shapes our reality and how reality shapes our dream worlds *Household Words* : ,1858 Household Words Charles Dickens, 1858 Household Words Charles Dickens, 2025-08-25 Reprint of the original first published in 1859 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage Medieval Philosophy Bruce Foltz, 2019-02-21 Medieval Philosophy A Multicultural Reader comprises a comparative multicultural reading of the four main traditions of the medieval period with extensive sections on Greek Byzantine Latin Jewish and Islamic traditions The book also includes an initial Predecessors section presenting readings with introductions from figures of antiquity upon whom all four traditions have drawn Representative readings from each of the four great traditions are presented chronologically in four different tracks along with engaging and accessible introductions to the traditions themselves as well as each individual thinker all selected and presented by noted scholars within each respective tradition This groundbreaking collection Offers readings from early

thinkers that contextualize the medieval traditions Presents for the first time extensive readings from the Byzantine Christian tradition that has wielded an important cultural influence from Russia and the Balkans to the Middle East and Northern Africa Chooses and interprets texts that are integrally important within each of these four traditions living traditions that continue to shape values and beliefs today rather than seen from an external point of view such as that of a later school of philosophy Juxtaposes extensive readings from poetic and mystical elements within these traditions alongside the usual often more analytical readings Features a timeline of the entire period a map indicating the locations associated with philosophers included in this volume an annotated guide to further reading on each of these traditions and an index of names and of subjects that appear in the volume Given its relevance for approaching the medieval world on its own terms as well as for understanding the foundations of our own world the volume is intended not only as an academic textbook and reference work but as a readable and informative guide for the general reader who wishes to understand these great philosophical and religious traditions that continue to influence our world today or perhaps to simply glean the wisdom from these enduring texts This is a culturally inclusive title which seeks to provide the reader with a rich varied and comprehensive insight into the entirety of the medieval philosophical world
