there really is hope This book shares with you our experiences as parents of a child diagnosed as severely autistic and sets out strategies that have worked for us in terms of helping our son to develop to understand and to function in the world I am aware that every child is different and every instance of autism is unique That means there cannot be a set manual for how to deal with autistic children and this book doesn't pretend to be one But there are common themes and it is my hope that some of the strategies we have used will work for your child while others even if they do not work for you will point you in a helpful direction for coming up with your own strategies Most of all I wish to convey that there really is hope We have gone from a situation of having our child diagnosed as severely autistic and being told that he should attend a Special School to now wondering what kind of job he will choose to do one day His transformation has been amazing So please know that the diagnosis of autism need not mark the end of your dreams for your child Your child is a unique wonderful being who sees the world very differently and there is a place for him in it For those of you who do not live with autism every day I believe you too would find this book enlightening and helpful in understanding a little more about the special people who are on the autistic spectrum My hope is that the ideas I have outlined in this book may help other parents to connect with their children as we have managed to do with our son I hope that it will help you not give up on those dreams of the life you thought you could have with your beautiful child before the diagnosis sent you reeling

Bloomsbury CPD Library: Secondary Curriculum and Assessment Design Summer Turner,Bloomsbury CPD

Library,2016-09-22 In the past few years the way we think about assessment has undergone a revolution From the re organisation of qualifications and examinations at national level including removing National Curriculum levels at secondary school to the increasing focus on active research to develop feedback strategies with a measurable impact assessment has never been so much at the forefront of educational thought While previously assessment was bound to the curriculum now there is a demand for schools to develop assessment systems that are merely driven by it Despite raising serious questions and challenges these dramatic changes provide a reason for teachers to evaluate their practice Simultaneously the nature of CPD has been reinvigorated in the digital age with teachers galvanised by online resources Twitter and educational blogs The result Teachers can take their development into their own hands and re professionalise teaching Bringing together these two movements this book provides an opportunity for teachers to grasp what formative assessment means how it complements the curriculum when used effectively how to employ it in their classroom and school and how they can improve their assessment systems and practice within the classroom Divided into two parts train yourself and teach others this book will dispel concerns and help teachers and school leaders to embrace and excel in all areas of formative assessment
