Miroław Michał Sadowski

Yumeichi French Edition:

Intercultural Communication with China Fred Dervin, Regis Machart, 2017-05-15 A major objective of this book is to identify the key determinants of the East and the West in the field of intercultural communication. It examines but also counter attacks essentialist and culturalist analyses of intercultural communication between China and the rest of the world. Offering a cross country examination and comparison of drought awareness and experience this book shows two fields of research which are complementary but rarely found side by side i.e. the Arts and Intercultural Encounters serve as illustrations for theoretical and methodological discussions about intercultural communication between China and the West. Scholarly and media discourses will find this work thought provoking, instructive and informative.

Intersections of Law and Memory Mirosław Michał Sadowski, 2024-03-12 This book elaborates a new framework for considering and understanding the relationship between law and memory. How can law influence collective memory? What are the mechanisms law employs to influence social perceptions of the past? And how successful is law in its attempts to rewrite narratives about the past? As the field of memory studies has grown this book takes a step back from established transitional justice narratives returning to the core sociological, philosophical and legal theoretical issues that underpin this field. The book then goes on to propose a new approach to the relationship between law and collective memory based on a conception of legal institutions of memory. It then elaborates the functioning of such institutions through a range of examples taken from Japan, Iraq, Brazil, Portugal, Rwanda and Poland that move from the work of international tribunals and truth commissions to more explicit memory legislation. The book concludes with a general assessment of the contemporary intersections of law and memory and their legal institutionalisation. This book will be of interest to scholars with relevant interests in the sociology of law, legal theory and international law as well as in sociology and politics.
