Collaborative Decision-Making Geraldine Rowe, 2020-11-23 It's Our School It's Our Time outlines a whole school approach to teacher-pupil collaboration illustrating how aspects of social inequality can be addressed by involvement in the school community and active participation in decision making from an early age. The book presents insights into the psychological processes that are at work when pupils and teachers share decision making and how this can harness and increase motivation for teachers and their pupils. Combining both theory and examples of practice, this book provides clarity about the impact of collaborative decision making and how it can help pupils to take ownership of their classrooms and promote greater cooperation and productivity. This book draws on 25 stories from Dr Rowe's own study and experiences as an educational psychologist and the accounts of other educators and researchers, showing how teachers and school leaders have overcome some common hurdles that those in conventional schools might encounter. It provides research evidence and practical examples from real-life classrooms that will inspire teachers, teaching assistants and school leaders. Written by a highly experienced educational psychologist, this companion guide will help teachers, head teachers, teacher educators and student teachers to transform achievement behaviour and motivation through greater collaboration with their pupils. **A**

Principal's Personal Journey Sylvester Carrington Ed. D, 2011-03-24 **Singing For Life** Gregory Barz, 2014-06-17 Efforts within the past decade to address the HIV/AIDS pandemic in sub-Saharan Africa have dealt with HIV/AIDS principally as a medical concern despite the fact that doctors continue to be confronted with the complex relationship of the disease to broader social issues. When medical and governmental institutions fail, artists step in. Contemporary performances in Uganda often focus on gender and health-related issues specific to women and youths in which song texts warn against risky sexual environments or unprotected sexual behavior. Music, dance and drama are principal tools of local initiatives that disseminate information, mobilize resources and raise societal consciousness regarding issues related to HIV/AIDS. Through case studies, song texts, interviews and testimonies, *Singing for Life: HIV/AIDS and Music in Uganda* examines the links between the decline in Uganda's infection rate and grassroots efforts that make use of music, dance and drama. Only when supported and encouraged by such performances drawing on localized musical traditions have medical initiatives taken root and flourished in local healthcare systems. Gregory Barz shows how music can be both a mode of promoting health and a force for personal therapy, presenting a cultural analysis of hope and healing. *Imperfect Leadership* Steve Munby, 2019-07-09 In *Imperfect Leadership*, a book for leaders who know they don't know it all, Steve Munby eloquently reflects upon and describes a leadership approach that is strong on self-awareness and positive about the importance of asking for help. Foreword by Michael Fullan. When asked to describe his own leadership style, Steve uses the word imperfect. This is not something he apologises for; he feels imperfect leadership should be celebrated. Too often we are given examples of leaders who are put on some kind of pedestal, lauded as superheroes who have it all worked out and are so good at what they do that nobody else can come close. This book is the antidote to that flawed perception. *Imperfect Leadership* is an honest reflection upon leadership. It

is about Steve's journey covering his highs and lows and ultimately how he learned to refine and improve his leadership. It is about messy trial and error, butterflies in the stomach, leadership and about thoughtful and invitational leadership and the positive impact it can have. At the heart of the book are edited highlights of the 12 keynote speeches delivered to increasingly large audiences of school leaders between 2005 and 2017. These speeches delivered at the Seizing Success and Inspiring Leadership conferences form the structure around which Steve's story and insights are wrapped. Steve's account covers some fundamental shifts in the English education system over this 12-year period and describes how school leaders altered their leadership as this context changed. Furthermore, it delves into how his own leadership developed as his personal context changed and explores how the notion that a leader needs to be good at all aspects of leadership is not only unrealistic but is also bad for the mental and physical health of leaders and will do nothing to attract new people into leadership positions. Ultimately, Steve hopes that as you read this book, you will see the value of imperfect leadership and of the positive impact it can make. For those reading it who have yet to step up into leadership, his sincere wish is that it will encourage and empower aspirational leaders rather than discourage them. Suitable for all those in or aspiring to leadership positions in education.

A School Built on Ethos James Handscombe, 2021-03-30. In *A School Built on Ethos*, Ideas, assemblies and hard won wisdom, James Handscombe explores how schooling is more than gaining qualifications, how learning is more than exams and how academic success comes more readily to those who have grasped this idea. Harris Westminster Sixth Form has had enormous success in providing an academic education for students of all socio-economic backgrounds. This success is grounded in the development of a scholarly ethos that guides students and staff into successful habits driven by a clear vision for the community and communicated through everything that the school says and does. In this book, founding principal James Handscombe takes readers through the school's development and illustrates its journey by sharing a selection of the assemblies that have underpinned and elucidated its ethos. In doing so, he offers guidance on how such a staple of school life can be used to shape a community and shares transferable lessons on how assemblies can be planned and delivered effectively. Furthermore, James discusses the challenges the school faced during its creation and offers an improved understanding of how academic and scholarly learning can be delivered and developed in a school, whether it be newly formed or already established. He also asks the fundamental question of how schools can encourage and enable disadvantaged young people to aspire to and engage in academic enquiry. Suitable for both established and aspiring school leaders, especially those who are thinking about the kind of school they would like to run and how they can shape it.

Sierra Educational News, 1920 **Justice** Tanweer Akhter, 2016-07. The law says be honest, truthful and faithful and treat everyone equally. But what does the law say when professional people start taking the laws into their own hands and playing with the justice system to use and abuse it with lies? When they deny the truth, lie and add false information to statements in order to ruin a person's reputation, what does the law say then? Is there any justice? I was a victim of this. My
