International Perspectives on Teachers Living with Curriculum Change Martin Wedell, Laura Grassick, 2017-11-10 This book gives a voice to English language teachers faced with the challenges posed by English language curriculum change As a core component of national state system curricula in virtually every country in the

world there has nevertheless been little research exploring how the millions of English teachers worldwide navigate the challenges posed by such curriculum changes This volume includes eleven stories from teachers based across every continent providing a global glimpse of how national English curriculum change projects have been experienced by classroom teachers who are commonly if erroneously viewed as mostly responsible for its implementation success or failure The final chapter synthesises these experiences and suggests wider implications for the development of curriculum change planning processes and how they might better support teachers attempts to achieve curriculum goals Edited and authored by leading experts in the field this ground breaking collection will be of interest to students and scholars of English language teaching teacher education curriculum change and education policy Tribes Education and Gender Question Sanjay K. Roy, 2005 Despite 58 years experimentation with the policy of protective discrimination and planned development a large majority of the 80 2 million tribal people languish in abject poverty landlessness powerlessness illiteracy and malnutrition Being caught in the hangover of the strong patriarchic tradition the women of nearly 700 marginalized tribal communities find themselves highly exploited subjugated and voiceless The present book first of its kind on tribes living in northern districts of West Bengal popularly known as North Bengal explores the areas of subjugation of tribal life and particularly that of the tribal women and analytically presents the case of tribal women in a tea garden locale in the Dooars region of Jalpaiguri district The focus of the study has been education i e how the tribes in general and tribal women in particular are doing in the field of education The field of education is chosen because it is generally considered the most important force of empowerment enlightenment and social transformation and because it provides us with a field to explore the areas of gender discrimination subsumed in tribal patriarchy The book has approached the problem of tribal education and the gender question in education against the backdrop of the dialectics of dominant subordinate relationship between the state and the dominant society on the one hand and the marginalized tribes on the other The uniqueness of the book lies in its critical approach to the state sponsored development strategies and its emphasis on a cultural approach for a better understanding of the problem and for working out alternative development strategies for improving the educational status of the tribal communities Sanjay K Roy Reader Department of Sociology North Bengal University West Bengal had his Ph D from Delhi School of Economics Delhi University and pursued post Doctoral research at the University of Sussex UK and University of Wollongong Australia Dr Roy has edited a volume on Refugees and Human Rights 2001 and contributed a good number of research papers to the leading journals volumes and to national and international seminars workshops His areas of interest include sociological theories urban poor refugee studies political sociology and gender studies Dr Roy has completed a number of research projects the latest being Gender Profile of Tribes of North Bengal which has been carried out for the Centre for Women s Studies North Bengal University **DSE-Assam PGT Exam PDF-eBook** Chandresh Agrawal, Nandini Books, 2024-10-21 SGN The DSE Assam PGT Exam PDF eBook Covers All Sections of The Exam Except Current Affairs
