Venkat Raman,2016-01-01 Three Hundred Important Combinations is intended to provide knowledge of the Yogas which indicate specific horoscopic trends All planetary combinations are divided into two groups viz Yogas and Aristhas or fortunes and misfortunes It deals with various standing combinations of yogas The systematised account of all the important yogas is brought out so that it may illustrate practical horoscopes The book certainly claims credit for being the first to bring together all scattered information and present it systematically **Core Yogas** , Parivartana Yoga Alan Annand,2015-08-21

Parivartana Yogas are said to be among the most powerful of planetary combinations having the capacity to link the effects of two astrological houses in a chart However aside from what we find explicitly in Mantreswara s Phala Deepika there s little in the literature neither in the many classics of Jyotisha nor in modern books to help us understand these yogas In this book an invaluable reference work for any Vedic astrologer s library the author describes the effects for each of the 66 combinations of house lord exchange also known as mutual receptions A case study of a famous person accompanies each combination
